

License Plates Shows Gain Over Money of 1948

Automobile plates in Randall county has brought in more money so far this year than was paid to the county in 1948.

When the final check was made on April 2 of sales up to that date, a total of \$68,635.17 had been taken in by Tax Collector M. E. Cantrell.

For the entire year of 1948, the sales amounted to \$77,270.12. The sales on April 2 of this year amounted to \$12,000 more than the total sales for last year.

This increase was in spite of the fact that the State Highway Commission refused to allow the sale of out-of-state bus plates to New Mexico Transportation Co. in Randall County.

Four Directors of Canyon Chamber of Commerce Banquet

Four directors of the Canyon Chamber of Commerce have been invited to the annual banquet of the Amarillo Chamber of Commerce on next Monday night.

Those accepting the invitation are Clyde Warwick, president, Bud Parker, vice president, T. S. Stevenson and Hosea Foster.

At a meeting of the directors Monday night John McCarty was heard on his promotion plans for the Palo Duro Park. He hopes to be able to release details next week of a great drive.

The list of concrete markers for the city street intersections was checked and approved. The company promises to have the markers completed in 45 days.

ATTENDS MEETING IN KANSAS

O. W. (Bud) Parker left Tuesday for Liberal, Kansas, to attend a District meeting of owners and operators of Western Auto Associate Stores.

MARRIAGE LICENSE

A. B. Bowerman to Della Mae Jones, April 4.

The Canyon News

Fifty-Fourth Year

Canyon, Texas, Thursday, April 14, 1949

Number 6

Announcement Is Made of Fishing Rodeo at Buffalo

The annual fish rodeo will start at Buffalo Lake and McClellan Lake on Friday of this week.

Fish have been tagged and placed in the two lakes. Fishermen who catch the high prize numbers will get big prizes as a result of their day's pleasure. The rodeo will continue until October 15.

In order to stimulate interest in the rodeo, no one knows where the fish with the lucky tags are being placed in the two lakes. All of the fish were placed in Buffalo Lake last year.

C. A. Murray Elected Vice President of Texas Math Ass'n

Mr. C. A. Murray of the mathematics department at West Texas State was elected vice president of the Texas Division of the American Mathematical Association which met in Denton last week.

Every college in the state was represented at this meeting.

Mr. and Mrs. Murray visited with Mrs. Murray's mother in Rule while enroute to the meeting and saw Mr. and Mrs. Carl York, former Canyon teachers in Denton. Mr. York is teaching mathematics in North Texas State at Denton.

Sgt. Calvin Wallen and wife of Roswell, N. M., and Mrs. Iva McCormick of Brownstown, Ill., are here at the bedside of their brother, Robert Wallen, who is seriously ill in St. Anthony's Hospital in Amarillo.

Canyon News Dedicates This Issue to Women's Home Demonstration Clubs

The Canyon News dedicates this edition to the fine group of women who are engaged in Home Demonstration work in this area.

Canyon will entertain about 300 delegates to this district meeting on Thursday.

These women are devoting their time to making the Panhandle country a better place in which to live.

Many stories of accomplishments are printed in this edition of The News. Constant readers of The News realize the accomplishments of the Home Demonstration Clubs of Randall County under the able direction of Miss Lou Ella Patterson. They will be interested in reading of the accomplishments of clubs of other counties. After all this Panhandle is only one consolidated community, and what happens in all neighboring counties is of vital interest to the people of Randall county.

The News joins others of Randall county citizens in extending most hearty welcome to our visitors and congratulations upon their accomplishments.

Grand Jury To Start Work on Monday, Apr. 25

A new grand jury will meet on April 25 to start its investigations of crime in the county.

Those notified to appear for service on the grand jury are: W. N. Barrick, Clyde Bearden, Herbert Crow, R. E. Ball, Ray Campbell, Joe Currie, Ray D. Brinson, Robert E. Crudginton, Jack Barnard, M. E. Cleavinger, C. E. Hightower, Stuart Condon, Jr., John Davidson, Marshall Rockwell, Jr., Ray Cole, Herbert Gerdson.

Twelve of the above will be selected to serve during the term.

MOVING INTO NEW HOME

Mr. and Mrs. Mark Foster have bought the W. G. Rose home, 1009 Third Avenue, and moved into it Monday night.

Mrs. Lon Davis Was Buried Here Tuesday 4 p.m.

Mrs. Lon Davis died Sunday night at her home in Floydada following an illness of several months. She was the wife of Lon Davis and had lived in Floydada for 29 years.

The funeral was held Tuesday afternoon at 1:30 o'clock in the First Christian Church at Floydada. The body was brought to Canyon for interment in Dreamland Cemetery.

Survivors are the husband and one son, Lon Davis, Jr.; the parents, Mr. and Mrs. Henry Bradford of Canyon; two sisters, Mrs. W. C. Black of Canyon and Mrs. Irby Caruth of Waco.

Mr. and Mrs. Lee Kennedy and son, Don, of Wichita Falls, visited from Friday until Wednesday in the home of Mrs. Kennedy's mother, Mrs. Dan K. Usery.

Mr. and Mrs. Walter Williams from Las Alamos, New Mexico, visited this week in the home of Mr. and Mrs. H. D. Curtis.

Canyon Club Is Strong With a Membership 100

The Canyon Country Club now has 100 members, and a waiting list of several who wish to buy stock in the club.

The back nine holes for golf has been put in playing condition following the long period of the war when the course was not used. The front nine holes will be made ready for play when there is a demand on the part of the members to improve this course.

The club is one of the most picturesque in the Panhandle and those who have taken advantage of the facilities offered are highly pleased to see new life in the organization.

The services of a good keeper have been secured, and the property is being rapidly put back into first class condition.

Good fishing is reported along the creek, while ample picnic grounds are available for those wishing to take their meals to the club.

Rotary Club Has Named Officers For Coming Year

Officers of the Canyon Rotary Club who will take office on July 1st were named Tuesday by the local club as follows:

Arthur C. Haley, Jr., president. Dr. R. A. Neblett, vice president. O. W. (Bud) Parker, secretary. Directors: Crannell Tolliver, Delbert Lowes, J. E. Miller and Dr. Roy L. Johnson.

Pinkie Harp spent Sunday in Vega visiting with his parents.

Mrs. Reeves Is Honored With Life Membership

Mrs. T. V. Reeves was elected to life membership by the board of directors of the Seventh District Texas Federation of Women's Clubs in session at Lubbock on April 4, 5, and 6.

The election was in recognition of services to the clubs of the 49 counties which comprise the district. Mrs. Reeves has been a department chairman continuously since 1923 and has served as convention program chairman for nine years.

"The Rock" Will Be Repeated at W. T. Thursday

"The Rock," a Bible drama based on the life of Simon Peter, which was dedicated to Dr. J. A. Hill, president emeritus of West Texas State College, last August, will be repeated as a part of the Lenten observance at W.T.

It will be given Thursday, April 14 at 8 p. m. in the main auditorium. No admission will be charged. Graduated students will return to fill their former roles. Wendell Cain, director of speech and drama at White Deer, will again have the dramatic role of Peter. Patricia Jean Smith, teacher of speech at Portales, N. M., will interpret Mary of Magdala and Betty Brown, Plainview speech teacher, will return to assist William A. Moore, WT instructor, with the production. Other members of the cast are Sybil Ann Gillis, P. J. Neff, Canyon, Frances Lynn Townes, Amarillo; Harold Mayfield, Childress; Wayne Rankin, Plainview and A. B. Smith, Wellington.

Trustees Elected in 4 Common Districts of Randall County

At the monthly meeting of the Commissioners Court Monday, election returns were canvassed from four common school districts and the following trustees were found to be elected:

District 9, R. B. Elliott.
District 10, H. H. Shipman.
District 11, Louis Raef.
District 12, Lynn Bennett.

No election was held in District 5.

Stork Specials

A son was born to Mr. and Mrs. J. C. Ford on Friday, April 8.

Mr. and Mrs. H. W. Demus are the proud parents of a son, born on Saturday, April 9.

Mr. and Mrs. John Wieck are the proud parents of twin girls, born on Monday, April 11.

MRS. BELL QUITE ILL

Mrs. B. T. Bell, 94 year old mother of Mrs. Harvey Cash, is quite ill at the home of Mrs. Cash. All the children were at the bedside of their mother last week. At the last report she is somewhat better.

Mr. and Mrs. T. M. Thurmon, Troy, Joyce and Gary attended the funeral of F. S. Bond in Plainview Tuesday. Mr. Bond was an uncle of Mrs. Thurmon.

Mr. and Mrs. W. H. Bond of Carlsbad, California, are spending a few days in the home of Mr. and Mrs. T. M. Thurmon. Mr. Bond is the father of Mrs. Thurmon.

Bennie Abbott Winner First in Amarillo Show

Randall county took the honors as Amarillo's annual dairy day got under way Thursday morning. Fourteen-year-old Bennie Abbott, Canyon 4-H Club member, was awarded two blue and one white ribbons after showing a group of females.

C. W. and Roy Retherford, Randall 4-H Clubbers, took one red, one white and one yellow ribbon, while Jones Hales, FFA member of five miles south of Amarillo in Randall county, took one red and one white ribbon.

Cattle of each breed was classified by the judge according to ideal type for each respective breed. Individual entries did not compete against each other, but against ideal type. Archa Meekman, extension service animal husbandryman, formerly of Levelland, was judge.

Blue ribbons were awarded animals scoring 85 to 90 points, classed "very good"; red ribbons to those classed "good plus," scoring 80 to 85 points; white ribbons "good," 75 to 80 points; yellow ribbons, "good," 70 to 75 points.

Early events of the morning centered around public judging contests in two divisions, one for club boys and one for adults, cards to be judged in these categories.

The educational event was held with three groups, Holsteins cows, milking shorthorn cows and Jersey heifers. Prizes were to be awarded Thursday afternoon for judging winners.

Around 50 dairy cattle were entered in the events, with heavy delegations of club boys from Panhandle, Canyon and other points. The GI vocational agriculture classes from Claude turned out strong.

The Amarillo dairy day is held each year just before the Plainview week of dairy events.

Bill Thompson of Plainview gave a short talk at the show ring describing the Plainview events. The Panhandle-South Plains show will be held April 9-16, with main events to get under way Monday.

The Amarillo show is sponsored by the extension service and the Amarillo Chamber of Commerce. John Blessen, is general chairman; Harold Shahan, Randall County agent, chairman of the cattle committee; H. M. Nichols, Carson county agent, chairman of judging contest committee.

Easter Art Exhibit Is Sponsored By Music Arts Club

During the Easter season, the Music Arts Club is arranging again an exhibit of art inspired by the Easter theme. The exhibit is to be placed in the Panhandle Plains Historical Museum, beginning on Thursday morning, and remaining until after Easter Sunday. Unusual pieces of religious art have been loaned for the display. A unique work is a large wood carving of Da Vinci's "The Lord's Supper"; this piece was carved by Mexican artisans.

There will be a display of old Bibles; one of these shows the Greek text along with the English. Paintings related to the season will also be on display.

Some of the items in last year's exhibit will be shown again; other works not shown last year have been made available this year. Also there will be music related to Easter during the exhibit.

Dr. Hill to Speak To Canyon P. T. A.

The Canyon Parent Teacher Association will meet Thursday, April 21 at 3:00 o'clock in the school cafeteria.

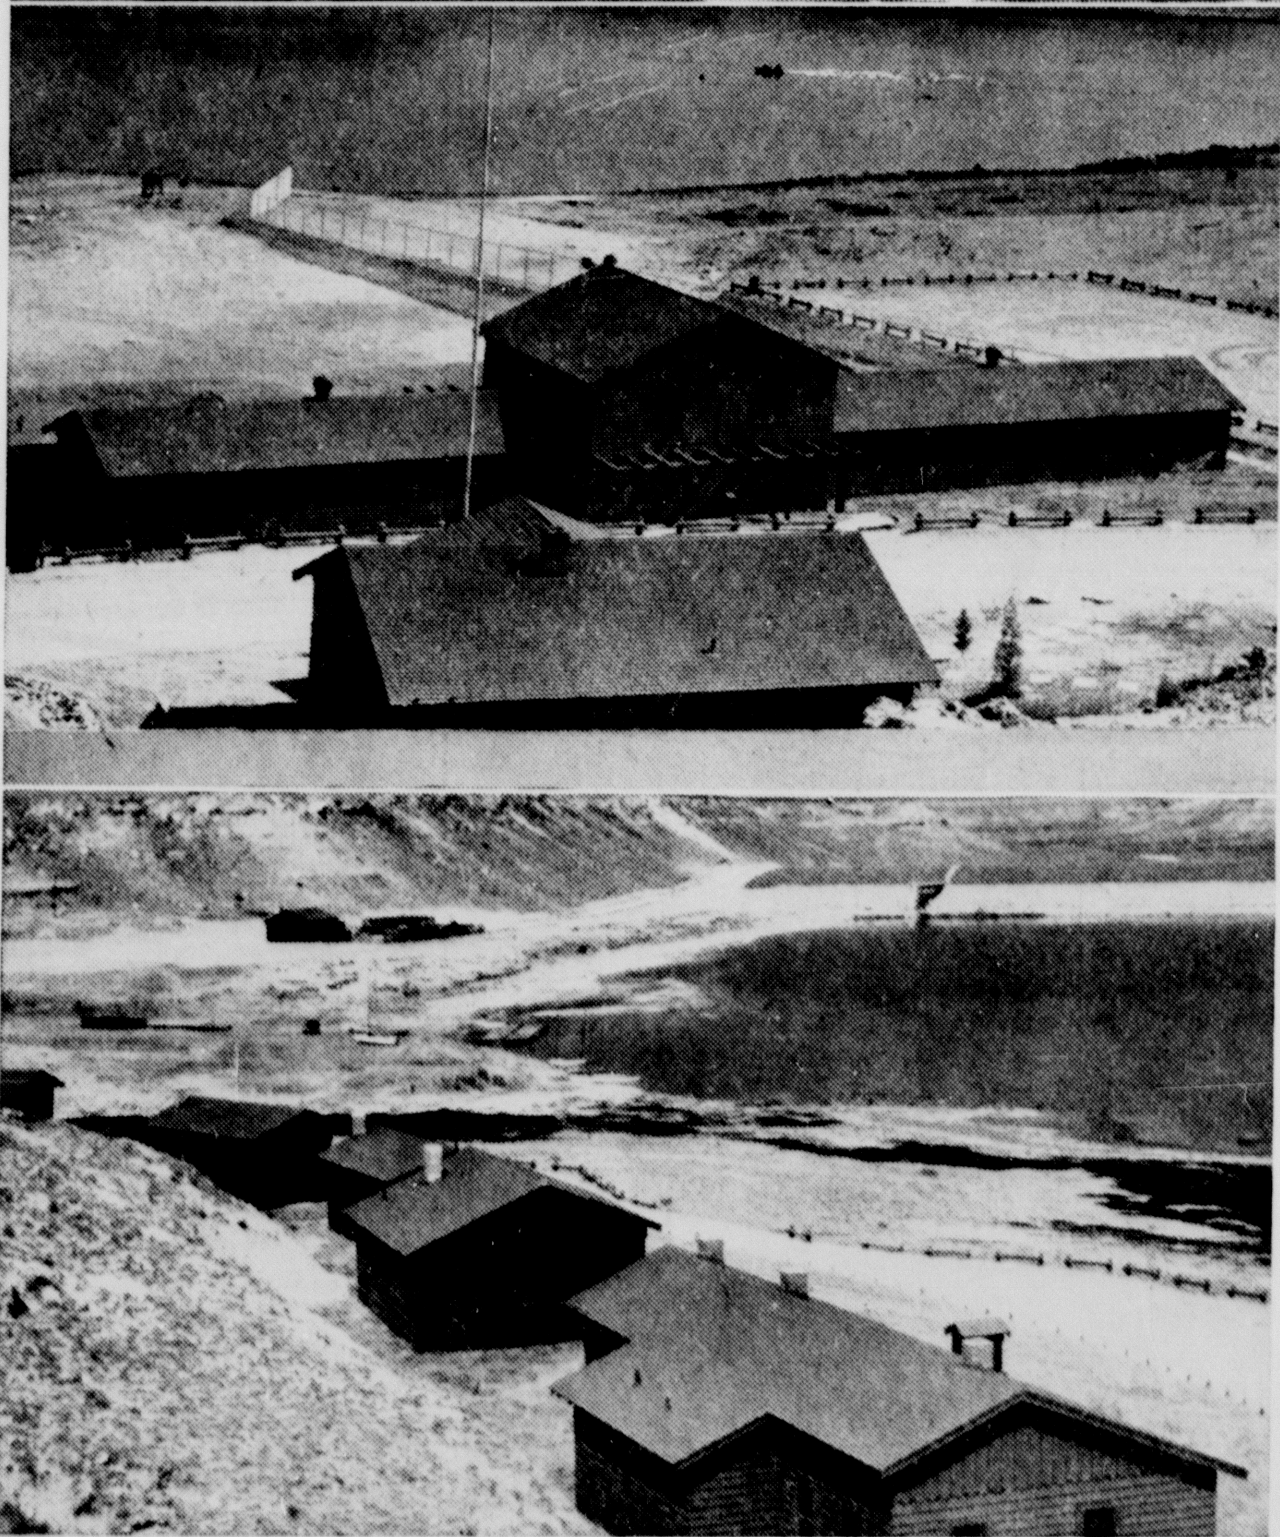

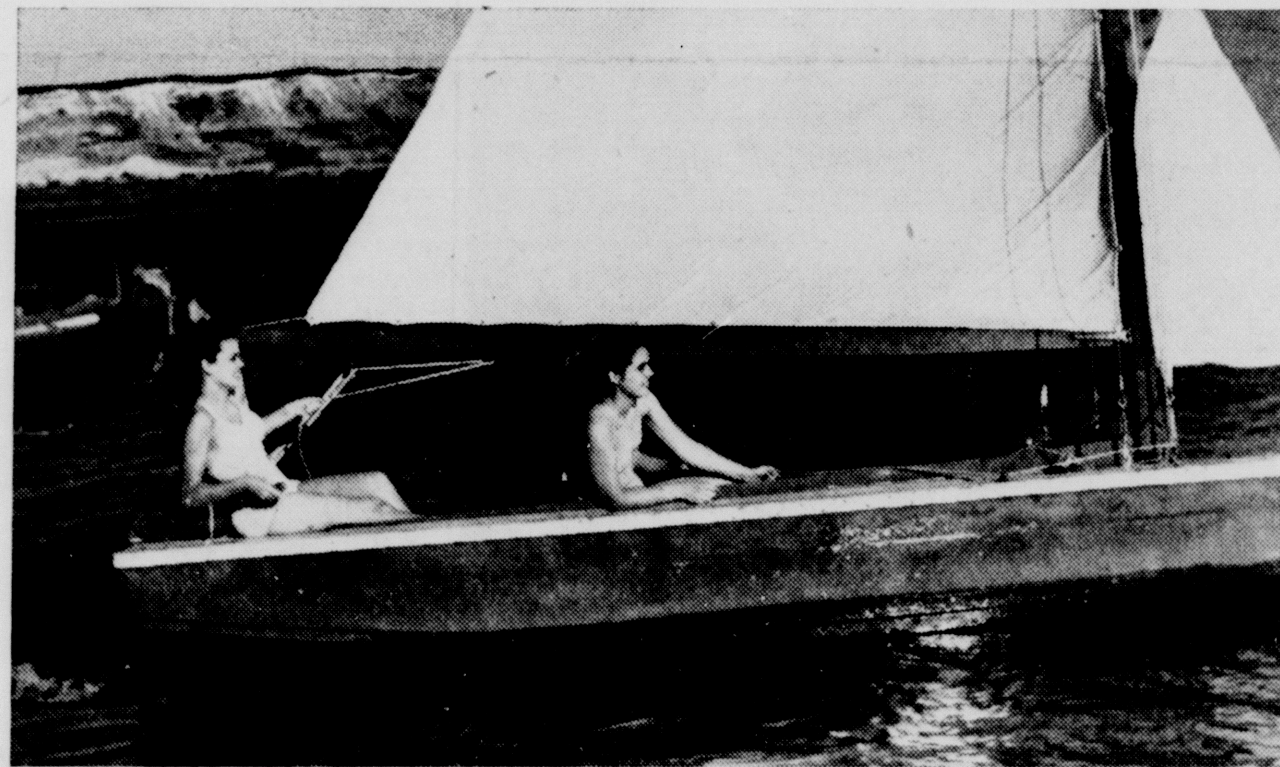

Dr. J. A. Hill will be the guest speaker. His topic will be "Finding Permanent Values Through Home and School."

Miss Patterson Is Hostess to Regional Meet

Potter H. D. Presidents Hold Spring Meet

Presidents of all home demonstration clubs in Potter County, with the home demonstration agent, as they convened for their annual spring meeting at the Amarillo Hotel on February 23rd with 142 in attendance.

Seated left to right are Mrs. E. W. Ward, President of Sixty-Six Club; Mrs. T. G. Baldwin, Bushland Club; Mrs. H. P. Aurouze of Economy Club and Secretary-Treasurer of Potter County H. D. Council; Burl Suratt, Ghizmeau Club; Mrs. T. J. Buntin, Forest Hill Club; Mrs. R. F. Freeman, Thrifty Club and Chairman of Potter County H. D. Council; standing left to right: Mrs. Buck Reasoner of Long S Club; Mrs. Lula Robertson of River Road Club; Mrs. T. H. Armstrong of Pleasant Valley Club; Miss Regina Neusch of Sunnyside Club; Mrs. James Walton of Soncy Club, and Miss Pauline Lokey, Home Demonstration Agent.

There are nine regular home demonstration clubs in Potter County and two auxiliary clubs, which have been incorporated in the city limits so became auxiliary. They may attend training schools, and council, although they have no vote, and may have four demonstrations by agent during the year.

Mrs. Hardcastle Is Happy With Intensive Work

"It is not how many years you live, but how much living you put into the years, that makes your life worthwhile."

It is the same with club work; it is not the years that count so much as the amount of club work you put into those years. Mrs. Wood Hardcastle, THDA chairman of Hutchinson County, has put a lot of club work into a relatively few years.

Mrs. Hardcastle joined the Alhambra Community Home Demonstration Club in 1943. In 1944 she began the first of two terms as club secretary-treasurer. In 1946 and 1947 she served the club as elected delegate to council.

When the Alhambra Club elected Mrs. Hardcastle to the office of club president in 1948, and again in 1949, she automatically served as a council member, taking reports from club to council. In all these years in council she has missed only two or three meetings.

Mrs. Hardcastle has served as council officer as well as club officer. She was county council secretary-treasurer during the year of 1948.

This year she is serving as county representative of the Texas Home Demonstration Association. In this capacity she also works with council, bringing to the attention of the club delegates in council the program-of-work of the association. She also attends club meetings, writes letters and tries in every way possible to bring the THDA program to the attention of the clubs in the county.

Mrs. Hardcastle was elected delegate from Hutchinson County to the District convention in Childress

BABY CHICKS

We are taking off baby chicks on Wednesday and Saturday each week at present. Both light and heavy breeds. We have electric, gas and oil brooders and poultry supplies of Jamesway make.

A complete line of Salsbury's Remedies. The well known Arrow feeds will be handled by us from now on. These feeds have been used in the north and east for years and compare favorably with all top lines of feed.

Meyers Hatchery

Phone 317 P.O. Box 243

in 1946. She has not been delegate to a district meeting since, but she has not missed a district meeting since 1946.

In both 1947 and 1948 Mrs. Hardcastle was delegate to the state meeting of the Texas Home Demonstration Association. She has brought back good reports from these meetings and has made that report available to every club wishing to hear it.

When she is on the club program, members know that they will have a good program, well prepared and well delivered. Both Mr. and Mrs. Hardcastle are interested in all community activities, and they are leaders in the recreational program of the neighborhood.

Whether it is a club meeting, a community party or picnic, or a branding on the DD Ranch where the Hardcastles live, club members and their families look forward to the gatherings at the home of the Hardcastles. They know they will find good food, good fun, and good "company."

Mrs. Hardcastle is the daughter of the late Bob Stevenson of Silverton. Mr. Stevenson, long-time sheriff and surveyor of Briscoe County, had just been re-elected surveyor for the twelfth term on the day he was buried.

Mrs. Hardcastle's mother, Mrs. Bob Stevenson, now resides in Canyon. Her home is at 1306 West Seventh Street.

Dean Acheson, U. S. Secretary of State, is described as making a move preliminary to extension of aid to Spain's Generalissimo Franco by loosening export controls in favor of Marshal Tito in Yugoslavia. The point is made that, if Communist Tito should be given a break, then so should anti-Communist Franco.

U. S. State Department planners have had a public opinion poll taken to determine whether opinion is in favor of a big loan to Generalissimo Franco at this time. The poll showed a majority against such aid.

Potter County Chairman T. H. D. A.

Mrs. J. R. Hogge, Route 3, Box 462, Amarillo, Texas, is Potter County Chairman of Texas Home Demonstration Association. Mrs. Hogge carries on all State and District 1 correspondence from her county. She will attend the District 1 Meeting on April 14th with two other delegates, Mrs. R. F. Freeman and Mrs. T. J. Maloney.

Americans are much happier than we are. They do not at all know what complexes are. Complexes are the most disgusting invention of the devil. And they (Americans) are not speculative — speculativeness is destructive; it leads to decay of mind, to decline of brain, to madness.—Oluf Brams, Danish student, on return from U. S.

Homo Sapiens is exceedingly tough. It will survive even if the species has two heads after the bomb is used.—Dr. Ralph C. Linton, Yale anthropologist.

*Little Man,
What Now?*

Manna's **MALTED MILK BREAD**

Dallam County Profits From Denman Works

Mrs. Tom Denman, Dallam County THDA chairman, resides on an irrigated farm in the Draper community where she has been an active member of the Draper Home Demonstration Club since 1941. During that time she has served as club president for two different terms, chairman of the county home demonstration council in 1945 and 1946, parliamentarian in 1947, and was elected county THDA chairman in August 1948. She has also served on numerous committees and assisted and furthered home demonstration work in many other ways. She has one son, Jim, who is a student in Panhandle A. & M. College at Goodwell, Oklahoma. Mrs. Denman is an all-around farm and club woman.

No one need fear that oil or any other reasonably low-cost source of energy is going to be supplanted by nuclear energy within any predictable time.—Sumner T. Pike, Atomic Energy Commission.

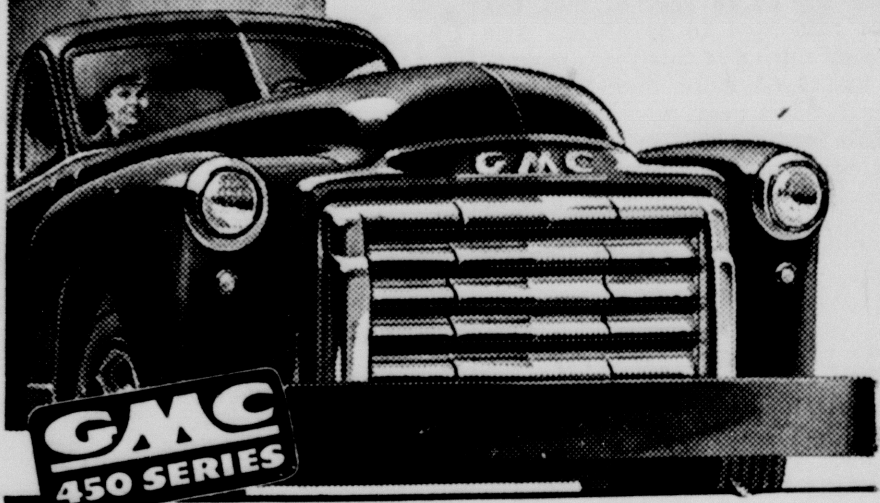

Washington jobholders are alarmed at the Hoover Report's threat to their swivel rights.

CUT COSTS!

. . . because Conoco Nth is made from fine paraffin-base crude—has wonder-working additives to reduce wear. You'll save on repair bills!

Oil-Plate today at your Conoco Mileage Merchant's!

Countywide Youth Poultry Show Is Project of Deaf Smith H. D. Clubs

Left to right: Ann Dyer, Jolly Girls 4-H Club; Ronald Kershaw, Hereford 4-H Club; Pluma Metcalf, Jolly Girls 4-H Club.

Deaf Smith County home demonstration clubs this year pushed the first countywide youth project Poultry Show to a successful conclusion and enthusiasm ran so high the organization is planning to hold another one next year in conjunction with the annual Youth Project Live Stock Show. Mrs. Argen Draper, energetic County Home Demonstration Agent has reported. Judging was done by U. S. Mildur, Amarillo poultry expert.

First prize in each division won 75 cents, second prize 50 cents, and third, fourth and fifth places won blue ribbon awards. In addition the Rotary Club which sponsored the live stock show gave \$2.50 to first place winners in the four classifications and a five dollar prize to the champion bird.

Premiums were awarded by interested poultry raisers to contestants entering the most and best entries. Winners were given the privilege of selecting the breed they preferred as long as they were pure bred and not from among the types cross bred for greater production.

Grand champion bird was a white Jersey Giant pullet, exhibited by young Ronald Kershaw. His pair of white Jersey Giant Pullets and cockerels were awarded honors as the best solid color male and female in the show.

A Barred Rock cockerel exhibited by 4-H clubber Pluma Metcalf, and a Barred Rock pullet shown by Ann Dyer won parti-colored male and female honors.

Participation in the show was good and the sponsors felt they had laid the groundwork of interest in a bigger and better poultry show next year.

"We'd like to stimulate interest in poultry raising," said Mrs. Draper. "There's a future in it for young folks who want to take the time to care for their animals and if they

Hutchinson Clubs Reach Community and Foreign Needs

There are twelve clubs in Hutchinson County, 7 of them organized within the past year. All clubs are beginning to learn the program of the Texas Home Demonstration Association, and outstanding work by individual clubs is reported here for District meeting.

The Opportunity Home Demonstration Club entertains in March for the whole family of all club members. Last year they served pie for five cents a cut, and since the pie was donated by members, this enabled them to put money into the club treasury.

Opportunity Club also won the blue ribbon and a ten dollar prize for best booth at Phillips Fair in 1948.

This year they plan to carry out the recommendations of the THDA program-of-work by a new plan. They will have a chairman in club to correspond with each of the five state chairmen, and these club chairmen will read and discuss the recommendation from the state committees at club meetings during the year. More of the women are reading recommended books since the county library put up a THDA book shelf with books recommended by the Education committee.

The Spring Creek Club sponsors some event to make money and to provide community recreation several times a year. These events include pie suppers and game nights. The event of last month was the St. Patrick's Day Game Party. They also have surprise drop-in parties where members bring their own refreshments and drop-in to play games.

Spring Creek club has a 4-H sponsor and has programs often by 4-H girls of the community. With an enrollment of eighteen members, the club has nearly 100% attendance at meetings.

The marketing chairman of Pringle Club has ordered leather for gloves, belts, purses and bill folds through pooled orders. Orders have also been made for cotton materials for tablecloths, luncheon sets and other household articles. All Pringle club members have added, or are adding, indoor and outdoor recreational equipment. Outdoor equipment includes outdoor fireplaces, slides, swings, and croquet courts.

Pringle finances their club by pie suppers, bazaars and "42" parties.

During family life week last year, the Sunshine Home Demonstration Club wrote and presented a radio program.

A Christmas tree and a program presented by children of club members was a community project in 1948.

Members of club bought through pooled orders materials for making gloves. An all day meeting was held with the county home agent assisting in the making of these gloves after material was received.

The Alhambra Community Club is proud of its record in carrying out recommendations of several of the state committees. Alhambra has carried out most of the recommendations from legislative committee, and has had two women out of a club of eight women to serve on legislative committee of THDA, one as both committee member and as chairman, and one as committee member at this time. Another member, president of the club, serves the Association as THDA chairman of the county.

Alhambra Club encourages 4-H Club work through attendance at calf and pig shows in the county and at larger shows where club members take livestock. The husbands of some members haul livestock and help out on prices.

It is on recommendations from recreation committee that the club has done its biggest work, however. Community-wide parties twice a month, family picnics several times a year, family participation in brandings and branding-dinners, and a yearly Thanksgiving dinner

Mrs. Meek Active In Church, Club And School Work

Mrs. Clyde Meek, Gageby, Texas was active in 4-H Club work for six years when she was a girl. She has been a member of the County Line Home Demonstration Club for 14 years. During this time she has attended several district and state THDA meetings.

She has taught six years in the schools in her community and is active in church work.

She, with her husband, has improved her farm home, making it into an eight-room modern home.

Mrs. Meek was elected THDA Chairman for Hemphill County last year.

and Christmas Tree, are projects of the club.

All clubs in the county send packages to CARE for European families. All clubs participate in an annual picnic for club members, friends, and families. Last year this was in the form of a chuck-wagon supper on a ranch, and 250 persons were present.

World's refugees are now record high number.

SUE HITE CLUB ENTERTAINS WOMAN'S BOOK CLUB AT TEA

The Sue Hite Club entertained the Woman's Book Club at a tea in the Branding Iron Theater on Monday, April 11.

Mrs. Herschel Coffee introduced the program. Mrs. Glenn Truax gave a brief talk on "What's New on Federation." "Strings a la Mode," a string ensemble composed of College students and directed by Mr. Lewis Stoelzing of the College Music Department, produced a fifteen minute program which was broadcast simultaneously over KAMQ. In addition to their theme song they played "Largo" and "Overture to the Messiah." Following the broadcast, Mrs. Donna Wilson sang "My Johann" by Grieg, "Villanelle" by Dell'Acqua and "When You're Away" by Victor Herbert. Mrs. Ples Harper accompanied Mrs. Wilson. Mr. W. A. Moore concluded the program with a short talk and dramatization of the one act play, "Minuet."

Mrs. J. S. Humphreys and Mrs. R. A. Neblett presided at the attractively appointed serving table. Spring flowers were used throughout the theater.

Members of the Woman's Book Club present were Mrs. Wm. Brume, Mrs. Roy Johnson, Mrs. Tom Knight, Mrs. T. V. Reeves, Mrs. Charles Donnell, Mrs. C. M. Dowlen, Mrs. T. B. McCarter, Mrs. Evetts Haley, Mrs. John Humphreys, Mrs. R. A. Neblett, Mrs. Walter Graham, Mrs. Clyde McElroy, Mrs. C. A. Murray, Mrs. Irving SoRelle, Mrs. Joe Findley.

Members of the Sue Hite Club present were Mrs. Frank Barnhill, Mrs. Hatcher Brown, Mrs. Durwood Brown, Mrs. Boone McClure, Mrs. Frank Beget, Mrs. S. P. Burgess, Mrs. E. R. Cleavinger, Mrs. Herschel Coffee, Mrs. Levi Cole, Mrs. Hugh Greiner, Mrs. Crews Henry, Mrs. Virgil Henson, Mrs. Robert P. Jarrett, Mrs. A. G. Kieselbach, Mrs. Gordon Lyons, Mrs. Truitt McGregor, Mrs. W. A. Miller, Mrs. W. E. Miller, Mrs. W. A. Moore, Mrs. Borden Price, Mrs. Burney Slack, Mrs. Crannell Tolliver, Mrs. Glenn Truax, Mrs. R. D. Wheelock, Mrs. Dan O'Connor, Mrs. Bill Wilson, Mrs. Charles Wright, and Mrs. Loyd Devin who had as her guests Mrs. R. E. Devin, Mrs. Delbert Devin and Mrs. J. R. Spralls all of Tulia.

Wayside Easter Sunrise Service At Canyon Rim

Again this year the Easter Sunrise Service will be held on Sunday, April 17, beginning at 4:30 a. m. on the rim of the beautiful Palo Duro Canyon located two miles west and one mile north of Wayside.

Part of the service will be an Easter film to be shown before sunrise. Everyone is invited. Bring your breakfast and eat with the group after the services.

Mrs. S. W. Cain, Miss Joy Cain, Mrs. J. Howard Bentley, John and Bill Bentley, arrived Sunday from Long Beach and Burbank, Calif., to visit in the home of Mrs. Cain's sister, Mrs. Chas. Harter and with other relatives in this vicinity for a few days.

Mr. and Mrs. Charlie Upfold spent Sunday in the home of her sister and family, Mr. and Mrs. Joe Thornton, in Vigo Park.

Go To Church Easter

Mrs. B. G. Woodburn and daughter, Mary Sue, of Amarillo spent Sunday in the home of her sister and family, Mr. and Mrs. A. B. Berry.

Easter Cards at Warwick's for all members of the family, or your friends.

Commies Slip in By the Back Door of Nation

In the March issue of Fortune, John Davenport writes on "Socialism by Default." His basic theme is a simple one—yet one that is being tragically overlooked in these days of overpowering government. He says: "It is apparent that, internally at least, this country is in no danger of collectivization by the Communists. . . . Equally certain it is that the U. S. is in no danger of formally espousing Socialism in the sense that a sincere Socialist of the stripe of Norman Thomas uses the word. . . . But socialism and collectivism do not always have to enter a country by the front door, especially if the rear door is left ajar. . . . The essence of European socialism is not that the state owns the means of production but that. . . it seeks to guide the course of production and distribution by a complex process of controls over prices, materials, imports and exports, and takes on such enormous functions that the private citizen is either subject to perpetual inflation or crushed beneath a staggering load of taxes. This kind of socialism. . . is technically different from the old-fashioned brand. But it leads to the same result—a vast and dangerous increase in the power of the state over men's lives."

What Mr. Davenport is saying is that we can drift into socialism and collectivism without knowing it. If we do, it will be because we permit the government to become too big and too strong. We are going to have big government in such fields as the military, foreign relief, internal relations and so on. But to believe that this must be accompanied by big government in every conceivable human activity is to surrender before the battle. The very size of Federal spending directly endangers economic and political liberty. If we must spend huge sums for arms and kindred purposes, that is all the more reason for paring to the limit that which we spend for unnecessary activities. To take an obvious example, what conceivable sense is there in taxing us all to put government into the business of producing a service, such as electricity, which can be produced without cost to the taxpayers by free enterprise working in a free society?

This is not just theory. It is hard, inescapable logic. No nation ever asked, eyes open for oppression and tyranny and dictatorship—the hallmarks of collectivism. But a score of nations have fallen beneath them—by default. Mr. Davenport comes to the heart of it when he writes: "Political institutions are meaningless unless buttressed by economic institutions that also allow for freedom." Liberty is not guaranteed to any one. It must be earned and protected.

Light Shower Fell Here Saturday p. m.

While many sections of the Panhandle was receiving a sizable rain Saturday afternoon, a shower of only .10 of an inch fell in Canyon.

Manus Read Foster, who is taking graduate work in the University of Kansas, Lawrence, Kansas, arrived Saturday to spend the Easter holidays in the home of his parents, Mr. and Mrs. Dewey Foster.

Mr. and Mrs. Joe Baber and Mr. and Mrs. Scott Webster of Amarillo visited in the home of Mr. and Mrs. L. W. Langston in Spur Sunday. Mrs. Langston is a sister of Mr. Baber and Mrs. Webster.

Mr. and Mrs. John Canavan and daughter of Herion, California, are visiting in the E. J. Larson home this week. Mrs. Canavan and Mrs. Larson are sisters.

Mr. and Mrs. G. R. Marcom of Levelland visited last week end in the home of Mr. and Mrs. C. H. Stratton. Mrs. Stratton and Mrs. Marcom are sisters.

Mrs. C. O. Cooper, Miss Mary Lee Cooper, Mrs. Jack Neil Cooper and son spent Saturday and Sunday in the home of Mr. and Mrs. John Cooper in McLean.

Mr. and Mrs. George A. Farlow spent the week end in the home of Mr. and Mrs. George Vineyard in Big Spring.

Mr. and Mrs. Clarence Beckman were in Temple this week where Clarence went through the clinic.

Miss Helen Taylor spent the week-end in the home of her parents, Mr. and Mrs. E. E. Taylor, in Friona.

Czechs May Buy Cars, But the Price Is High

There's no trouble in buying a car in Czechoslovakia, where the automobile industry has been nationalized and, like practically all other enterprise, is run by the state. All you have to do is to walk into an agency and plunk down the money.

The only catch is the price. The available car, a two door sedan costs more than 415,000 crowns, which is about \$8,300. That sum represents 80 months of the average worker's pay. The car, according to an AP dispatch, is "considerably smaller than the 1933 Chevrolet." If you have a ration permit proving your need for a car, other than a desire to own one, you can get it for about \$4,000.

That is an excellent example of how regimented economies, which have abolished all competition and all free enterprise, produce good for the people. There is no need to improve quality or reduce prices—the customer takes what the government offers him or does without. Absolute monopoly prevails. Only the

"elite" class of office holder has sufficient income or political pull to live beyond a subsistence level.

In this country, by contrast, every producer must face the competition of many other producers, every one of which is out to get more business. This can only be done by pleasing the customer. On the retail level, regardless of the kind of goods involved, the competition is particularly intense, with every merchant and dealer looking for new ways to bring the customers in. We get better goods, and a more varied selection. We get them at a price which competition holds to the lowest possible level. And those goods are within the reach of the millions, not of just the few.

Easter Cards at Warwick's for all members of the family, or your friends.

Mr. and Mrs. Ed Mickle returned Friday from Mosquero, New Mexico, where they have been spending the last two months with their daughter and family, Mr. and Mrs. J. L. Heafner.

Mr. and Mrs. O. W. (Bud) Parker and Karen Sue visited with Mrs. Parker's sister and family, Mr. and Mrs. C. P. Cole, in Pratt, Kansas over the week-end.

Mrs. T. C. Lavley of Roswell, New Mexico, visited in the home of Dr. and Mrs. A. M. Biggers this week.

Truman Proposes Insurance From Cradle to Grave for All Citizens

U. S. News & World Report has published a summary of President Truman's social security plan, including estimates of what the cost would be now and in the future.

The program provides for government care and aid to individuals every step of the way from the cradle to the grave. Compulsory health insurance would pay the costs of birth, and during childhood medical and dental service would be provided. Federal grants to states would pay part of the cost of schooling, and if a child were orphaned the government would assume the financial responsibility. After the child grew up and went to work, the government would guarantee him disability assistance, extending up to a lifetime pension, if he were injured on the job, and unemployment payments if he were out of a job. He and his family would obtain medical care under the compulsory insurance system, and good subsidies would be given low-income groups. When he reached the retirement age of 65 he would be entitled to a life pension. At death, his funeral expenses would be met, at least in part, by a government check. Finally his widow would be pensioned.

What would this all-inclusive program cost? As planned now, the maximum income to be subject to the payroll tax would be \$4,800. Men in that income bracket would be assessed \$264 a year, by 1955, to pay the social security bill, and the employer would contribute an equal amount, for a total of \$528. This would come on top of income and all other taxes.

At present the payroll tax is 3½ per cent. According to U. S. News, it would have to be increased to 11 per cent by 1955 and to 18 per cent by 1960. There is always a possibility that estimates would have to be revised materially upward.

It is clear — whether or not one approves the program — that this

concept of social security involves great changes in our philosophy of government and our economic system. The government would be given vast powers that it never had before. The effect of the program on individuals was expressed by the News in these words: "The trend... is toward a leveling of incomes, with a rising floor under the minimum income a family can receive, and a lower and lower ceiling on the maximum earnings an individual is permitted to keep." Those who want cradle - to - the - grave social security believe that trend is necessary and right. Those who oppose it feel that it would be dangerously destructive to enterprise and initiative. That is the basic problem Congress must decide.

Gen. Mark Clark, former U. S. commander in Austria, who is slated to take over command from General Clay in Germany, will operate more closely under civilian orders than has General Clay. The State Department plans to shape policy in occupied areas, with Army personnel doing much of the administering.

General of the Army Douglas MacArthur, Supreme Commander in Japan, is gradually to be surrounded with civilian advisers sent out from Washington. General MacArthur, since war ended, has run the show in Japan with little interference from the outside.

Gen. Lucius Clay, U. S. commander in Germany, has been pressing Washington to step up pressures that can be exerted against Russians in Eastern Germany and against Russian satellite nations in Eastern Europe. Diplomats, however, are not now in a mood to intensify the "cold war."

Snyder urges end to tax exemption of life insurance.

Amarillo Sandies Take Track Meet at Stadium Saturday

The Amarillo Sandies were easy winners in the 1-AA and 1-A track and field meet held at Buffalo Stadium Saturday afternoon.

The Sandies made 87 points; Pampa Harvesters, 35½; Childress, 21; Borger, 8½.

MEETS HUSBAND IN HAWAII

Mrs. James C. Fulton has met her husband in Hawaii where he will be stationed with the army. M/Sgt. Fulton had first been stationed in the islands for overseas duty when last spring he was sent to Germany. When he received his assignment to return to the islands Mrs. Fulton went on ahead to be there when he arrived. Mrs. Fulton will be remembered as Ramona Hamblin, daughter of Mr. and Mrs. W. H. Hamblin.

Olin E. Hinkle, instructor in the journalism department at the University of Texas, visited with his parents Mr. and Mrs. W. J. Hinkle, while attending the Panhandle Press Association in Amarillo over the week end. Mr. Hinkle is a past president of the Association and attended the banquet on Thursday evening.

Mr. and Mrs. Lillard Thompson spent the week-end in the home of her brother, Mr. and Mrs. Paul Rogers. Mrs. Thompson is with the Federal Health Department and they have just recently returned from Honduras, C. A. where they have spent one year working with the Department in the prevention of communicable diseases. They are awaiting their new assignment.

Mr. and Mrs. Pat Baber visited with Mr. and Mrs. Olin Huff and daughters and other relatives in Wichita Falls from Wednesday through the week-end.

Mr. and Mrs. Martin Phillips and son, George, of Hale County visited Sunday in the home of her parents, Mr. and Mrs. Worth Jennings, Sr.

Not the Reaction He Wanted

Miners Tell You When and How Much Coal Used

A newspaper recently made this interesting comment: "If the mine owners were organized merely to set a uniform, fixed price for coal, the government would proceed under existing statutes to send these men to jail for conspiring in restraint of trade. What the union is in a position to do is much more damaging. It is organized to tell the nation that it can't have coal at any price unless the union gets what it wants. That, as we have said before, is more power than can safely be entrusted to any set of men."

The arrogance of the United Mine Workers is without bounds. Its most recent act, in calling a two-week stoppage because of opposition to a man who was appointed to the Federal Bureau of Mines, is typical. The law provides that such appointments shall be made by the President of the United States with the consent of the Senate. But this is not good enough for the United Mine Workers. It apparently wishes to be the arbiter of who shall hold office and who shall not.

The United Mine Workers' policy provides the best possible argument in favor of laws which will restrain labor excesses against the public interest. If this union has the power to stop production of a vital resource such as coal, it can undermine our industrial stability and national security at will. It can create unemployment and serious hardship in every corner of the land.

Louis Johnson, the new Secretary of Defense, is giving the Army renewed hope that it might be allowed to gobble up the Navy's Marine Corps as unification of the armed forces is pushed. The Marines had figured that they were assured of continued life.

Crime lessening among American women, Salvationist says.

Paul Hoffman, Marshall Plan Administrator, is not to oppose very strongly the developing plans of Britain and some other European nations to devalue their currencies in order to make it easier for Americans to buy their goods. Europeans look at currency devaluation as an easy way to reduce prices of goods for sale in U. S.

Pughs Prove Power of Planned Work

Top picture shows home improvement before work was started; second picture shows completed home; bottom picture shows Mrs. H. R. Pugh in her home.

Home improvement, interior and exterior has been studied by Carson County Home Demonstration club women for two years.

In October 1948 the women visited some outstanding home improvement demonstrations. The tour took them to the home of The Geo. Jenkins in Tony Ridge community, The H. R. Pugh's Liberty H. D. Club, The Harold Knapps, and Paul Daubers in Friendship Circle, The Mecaskey Ranch, The J. E. Wagoner home of Groom Community and the Al Britten home in the Conway Community.

Rita Hagerman Ranks Gold Star Pin In 1948

Miss Rita Hagerman, daughter of Mr. and Mrs. Leonard Hagerman of Kelton has been awarded the Gold Star pin for the outstanding 4-H club girl of Wheeler County for 1948, according to Miss Genevieve Morton, assistant county home demonstration agent.

At the Myrtle Home Demonstration Club Christmas party Miss Morton awarded the pin to Rita for her special demonstration on her bedroom, and outstanding 4-H Club work of the year.

Rita is a 6th grade student at Kelton and has been in the Kelton 4-H club 2 years—her other year of 4-H club work being done in Oklahoma. During 1948 she was bedroom demonstrator for her club and is now secretary of the club.

During Rita's first club year she helped raise a garden and flowers, and helped care for the chickens. She also sewed and helped can 60 quarts of food.

As a second year club girl, Rita made a dress and a pair of pillow cases, hemmed 12 cup towels, helped dress chickens for the locker, and prepared meals for a family of eight over a nine day period, kept house, and did the ironing while her mother was in the harvest. That same year Rita helped can 160 quarts of food. She also made all of her Christmas gifts for that year.

This past year, Rita made a dress, crocheted five pin cushions, made a sheet, 2 pair of pillow cases, 2 dresser scarves, helped quilt a quilt, and tacked a wool comfort. She also dyed her curtains and reupholstered her bedroom furniture, and is keeping the room clean. Again she cooked meals for a family of eight over a 12-day period, and did the housekeeping and ironing. She took care of a flock of 250 chickens and helped to raise a garden. At our county fair she put on exhibit her dress, a bed lamp made from a large grapefruit juice can, some crocheted work and some canned goods. She also made 20 glasses of jelly, dried 3 pounds of apples and helped can 188 quarts of food.

Carson County 4-H Clubs Inspired By Mrs. Jay Phillips

Mrs. Jay Phillips, Carson County THDA Chairman was a Carson County 4-H girl for five years, and sponsored 4-H for seven years and was largely responsible for organizing the Busy Bee Home Demonstration Club.

A native of Kansas Mrs. Phillips moved with her parents to the White Deer community in 1927. She was four years old at the time. She is a graduate of the Groom High school and was a member of the Groom 4-H club for five years. Two years of which she was its sponsor. She has sponsored the White Deer 4-H club for five years.

Mrs. Phillips helped to organize the Busy Bee Home Demonstration Club for young married women in

Friendly Group Works Is Home County THDA

Mrs. Earl DeHart, friendly Deaf Smith County THDA chairman, has charge of the get acquainted stunt for the Thursday session of the area Home Demonstration meeting.

Mrs. DeHart, a farmer's wife who says she's "interested in living on the farm because you are your own boss," knows her home demonstration clubs and club members. She's been in the work for 27 years, ever since she joined a 4-H club in 1922. "I believe in Home Demonstration clubs. They help farm women be better homemakers because of the things they teach us about clothing, cooking and decorating. There isn't a single day goes by that I don't employ my knowledge I've learned in this work," she said.

A native of Wilbarger County, Mrs. DeHart finished school in Vernon, spent a year at business college in Amarillo and then returned to the farm. It wasn't long after that she married Earl DeHart, in November, 1930. They moved to Deaf Smith County in 1937.

The DeHarts have one child, 14 year old Kenneth, who is being reared in the make-your farm-pay tradition. Already introduced into 4-H work, Kenneth exhibited his lambs at the Deaf Smith County Fat Stock show this year.

His mother is an ardent 4-H fan. When she belonged to the Armstrong County club, engaged in sewing, gardening and poultry projects, she repeatedly was a ribbon winner at the Tri-State Fair.

One year, due to her outstanding record, particularly with her clothing demonstration, she won a trip to the Dallas State Fair.

"We really ought to push 4-H work," is her opinion. "That way we help the young people to help themselves."

Graduating into home demonstration work almost 25 years ago, Mrs. DeHart has held practically every office in the club. She has served as council chairman in the district four years ago and is well known among club members throughout the area. In Deaf Smith she is a member of the Cultural Home Demonstration Club.

1947. She is vice president of this club.

Mrs. Phillips was Carson County Gold Star Girl in 1940. She was also the county's delegate to the 4-H Round-up at Texas A. & M. College that year. She attended the round-up again in 1946 as the county sponsor.

The Jay Phillips' live on a farm between White Deer and Groom. They have a two year old daughter.

"Only a lunatic would start a war now," says an atomic scientist. We do wish those nuclear experts would stop frightening us.

Mrs. Hartnett Sees All Phases of Club Activities Well Done

Mrs. Jimmie Hartnett, Amarillo, Route 1, was elected Randall County THDA Chairman last year, an office which is held for two years, term of the State President.

Three years member of Green Haven Club, President two years. Attended glove making school and one of the work simplification meetings. Made four pairs of gloves, won second prize at the Tri-State Fair in 1948. Also took part in the Aluminum work by making several articles for Christmas presents.

In Council served on Yearbook Committee two years and is now reporter for the group. Was a delegate to the District Meeting in Perryton in 1948 and the State Meeting at Temple.

"I enjoyed most my year as Clothing Demonstrator in our Club, when, besides, cooperating with Miss Patterson's suggestions and plans, I made a special project of using all the colored feed sacks I could and making as many gifts as possible throughout the year. The articles made included child's dresses, ladies' dresses, pillow cases, dish towels, luncheon clothes, child's slips, and aprons. I entered several articles in the fair and won enough in prizes to pay for all the notions bought for this clothing project."

55.3 billion record is reported for November inventories.

Young Ladies of Armstrong County 4-H Clubs Enjoy Cookie and Cake Show

Pictured above are young ladies of the Armstrong County 4-H Clubs who participated in the Cookie and Cake Show held at the Community Home December 18, 1948, sponsored by Bewley Mills of Ft. Worth and the Extension Service, A. and M. College, cooperating.

Reading from left to right, back row, standing: Dorothy Jean Eddleman, Nancy Carr, Patricia Tims, Wanda Grunke, Evelyn Stephenson, Ruella McGowan, Lugenia Hubbard, Sue and Yon Smith.

Second row, left to right: Inez Eddleman, Montie Hubbard, Margaret Knott, Joyce Dunn, Vesta Ann Kelly, Judith Ann Lowry, Edwina Laycock, Amy Hudson, Sandra Hughes, Carolyn Logsdon, Jo Ann Byrd, Elena Ann Donald, Norma Gayle Posey, Tizzie Smith, Rhita Jean Thomas.

Front row, seated: Doris Jean Winkcompleck, Sharon Wiseman, Betsy Cole, Latrice Moore, Dorothy Jean Thomas, Joreen Hood, Rita Dye, Sylvania Wiegman, Joyce Aduddell, Sue Dye, Evelyn Hooker, Sue Beth Bennett, Mary Ann Smalley and Vivian Newberry.

Judges for the show were Mrs. John Jones and Mrs. J. K. Hunt. Leaders attending were Mrs. W. C. Hubbard and Mrs. Steve Donald of Goodnight, Mrs. Forrest Bennett of Claude and Mrs. Myrtle M. Austin, Demonstration Agent.

Landscaping In Sherman County Has Good Results

Mrs. Baskin Brown is T. H. D. A. Chairman for Sherman County. She lives in Stratford and is a member of the Best Yet Club. She is the mother of a five-year-old son.

For the past two years, landscape gardening and home improvement have been the major demonstrations

NOTICE TO CREDITORS OF THE ESTATE OF N. B. ARMSTRONG, DECEASED

Notice is hereby given that original letters of administration upon the Estate of N. B. Armstrong, Deceased, were granted me, the undersigned, on the 26th day of March, 1949, by the County Court of Randall County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post office address are 3806 Ong Street, City of Amarillo, County of Randall, State of Texas.

SAMUEL S. RUTLEDGE, Administrator of Estate of N. B. Armstrong, Deceased.

of club women of Sherman County.

To realize fully the results of a planned landscape program, one must see the farm homes of Mrs. T. F. Baskin, Mrs. Jim Taylor and Mrs. Luther Browder. By following a planned work program these farm families have developed their landscapes over a period of five years. These families began their landscape programs while Miss Mable Martin was the agent. There are nine who have begun their demonstrations in the past two years.

The home improvement phase of the county program has been county wide. Nearly every home has had some type of improvement added, while other families have built new homes. The Shuler Donelsons, who have remodeled a home in the county, have added much needed closet space. They have planned closets for the children so that they have a place for everything. The T. L. Wakefields have enlarged their living room, added a bedroom, another bath, kitchen and dining area. These are typical of the improvements which have been made by others.

4-H clubs have been doing clothing and gardening work. The county dress revue winner, Mildred Bennett, entered the state revue and placed in the top group. In the gardening phase of the 4-H program, strawberries were to be started by each member. Soon many 4-H club families will be enjoying the strawberries.

The clubs of the county have been contributing to French relief. The letters of thanks have been very gratifying to the women.

"A name on each farm in the community" is the goal of the Southside Club. They are making signs to place along the main road. They are white with black letters. They hope these signs will eliminate many questions asked by travelers in the community about where their

Mrs. Conner O'Neal Stresses Reading In Gray County

Gray County's THDA Chairman, Mrs. Conner O'Neal, is a charter member of the Bell Home Demonstration Club which was organized 17 years ago. She has served Bell club as president, vice-president, secretary-treasurer, reporter, council representative and kitchen demonstrator.

The O'Neals have five children—four girls and one boy. They have one grandchild—a grandson. Her son and one daughter are still members of 4-H clubs.

Mrs. O'Neal is stressing the THDA Reading Program this year.

neighbors live.

This spring Sherman County should blossom with tulips as each club woman planted bulbs last fall. This has been a county wide project in honor of Mrs. Carl McDowell, past vice-president of the district.

Home demonstration work is in its twelfth year. The present agent, Dorothy Dixon, has been in the county since July 1946.

There are five adult clubs in the county and these club women have an active home demonstration council. Mrs. Beritt Sweny, also of Southside club is the council chairman. Mrs. Oma Ellison, also of the Southside club, is vice-chairman. Mrs. Wayne Harding serves as secretary and is a Best Yet club member. The treasurer of the council and a Star club member is Mrs. S. J. Lavake.

Armstrong County H. D. Clubs Led By Mrs. E. P. Berry

Mrs. E. P. Berry, Claude, Texas, is a farm home maker and a strong believer in Home Demonstration work. She helped organize and was the first president of the Chamberlain Home Demonstration Club in Donley County, thirty years ago.

Mrs. Berry moved to Armstrong County in 1922. Her first work was to help secure a home demonstration agent for her county.

Mrs. Berry is a charter member of the Fairview Busy Bee Club, which was organized in 1922.

Ten Clubs In Dallam Accomplish County Wide Improvements

Dallam County, located in extreme northwest corner of Extension District I, has ten active home demonstration clubs in 1949, with a total membership of about one hundred and fifty women. The home demonstration council, under the leadership of Mrs. E. F. Fisk of the Chamberlain community is active and has outlined a broad program of work through the seven standing committees. To help get home demonstration work before the public, each club will set up an educational exhibit during the year on some phase of home demonstration work. The Rita Blanca Club set up an exhibit in a local store window in February on work simplification. The State-line Club has made an exhibit in March on factors affecting egg quality and methods of improving egg quality. All clubs have adopted a French family to assist. In a recent clothing drive for Boys Ranch, many of the women contributed used clothing and some of the clubs have made plans to further assist.

Home improvement and home food supply are the demonstrations the home demonstration clubs are emphasizing this year. A number of

new homes have been built recently and a greater number remodeled and improved. Five families have received trees ordered from the Texas Forest Service to make windbreak plantings and improve their farm landscapes. A number of the women have set out grape cuttings secured from the Dalhart Experiment Station.

A county-wide style and hobby show will be held the latter part of April. Each home demonstration club member is to bring an apron for this show and these will be sold to help boost council funds. Several home demonstration club women serve as 4-H leaders and the clubs and council support of 4-H work has helped to make it the most im-

portant rural youth organization in the county.

Bernard M. Baruch, retired industrialist: "We need have no fear of the present or future, if we keep ourselves strong militarily, economically and spiritually."

Help Is Risen**Objectives For the Chamber Commerce Outlined at Rotary**

An outline of objectives of the Chamber of Commerce for 1949 were outlined Tuesday at the luncheon of the Canyon Rotary Club by Clyde Warwick, president of the Chamber of the year.

The first objective as adopted by the Chamber is the placing of adequate street markers at all street intersections. These markers are expected to be completed in about 60 days.

Another objective which was adopted Monday night was full co-operation of the program for development of the Palo Duro State Park. The directors had approved this program Monday night.

Other projects which will be taken up by the Chamber secure funds for operation are: Establishing a Town Hall meeting; greeting visitors and newcomers to Canyon; more adequate highway signs; planting trees along the highway between Canyon and Amarillo; establishing an adequate city park; continued advertising of the college; and continued improvement of the various facilities which are offered by the city in order to make this a better place in which to live.

Herschel Coffee, a member of the board of directors, closed the meeting by urging the financial support of all business and professional people of Canyon.

Visitors were: Virgil Jackson of Wentachee, Wash.; J. E. Simmons of Albuquerque; Jack Thorman of Levelland; Joe Watson of Canyon; John A. Cornell of Plainview; W. H. Torrey, M. K. Watson, Ken Bell, W. W. Rusk, Floyd Hemphill, Forrest Barnes, Joe C. Rogers, E. C. Wagner, Arch Hunsley, all of Amarillo.

REMAINING IN LUBBOCK

U. S. revising living-cost index to reflect post-war habits.

Centennial Pageant Will Be Shown Here Saturday Afternoon

One of the most impressive features of the Wisconsin Centennial Exposition, held at Milwaukee last August, is being brought here for public showing on Saturday by the O. A. May Implement Co., at the Plaster building, west side of square.

Playing to packed stands and overflow crowds every day for a week, the Case "March of Machines" and "Parade of Plows" was witnessed by thousands who came from practically every state of this country and province of Canada, plus visitors from foreign lands. Inspired by its enthusiastic reception at the Centennial, sponsors of the pageant made color movies of the entire performance. That's how scores of costumed performers, yokes of oxen and teams of horses, ancient implements and quaint machines, can be shown here.

Actually the swift-moving show is an epic of 5,000 years of farming, from the muscle-power of slaves at the dawn of history to the machines and implements of the last century, all but the latest of which are already obsolete. Some are museum pieces, restored and actually operated for probably the last time. To all but old-timers, it brings a first glimpse of sweeping power and tumbling rods, tooting steam engines, and the art of hand-feeding.

Also in color is a cartoon-sequence film, "Saga of Sawdust Sam," an easy-to-take lesson in farm safety. Completing the full program will be one of the Case sound-movies on soil conservation practices, chosen for its suitability for the methods and conditions prevailing in this community. While the show is being arranged primarily for farmers, it is of general interest and everybody will be welcome to the limit of seating capacity.

Easter Cards at Warwick's for all members of the family, or your friends.

American League to play 199 games under lights in 1949.

Polish police say they crushed foreign plot against leaders.

Ground Breaking for New Methodist Hall Was Held Sunday

Ground-breaking ceremonies for a Methodist Student Center, west of the Museum at West Texas State College was held Sunday afternoon.

The building will be constructed of ledge stone and brick veneer. It will have a class room for a Bible Chair, small chapel for private and group worship, lounge, game room, office, work room, kitchen and lavatories. An apartment for a Bible teacher who will be director of the Wesley Foundation, organization for Methodist students on the campus, is provided.

John L. Hammon, architect of Amarillo, estimates the building to cost \$35,240. Board of directors of the Wesley Foundation were present. They are Rev. Luther Kirk, Perryton District Superintendent; Dr. E. D. Landreth, Superintendent of the Amarillo District; Rev. Hubert Thomson, pastor of the Canyon Methodist Church; Raymond Thompson of Vega; J. W. Shook, Canyon, and Joe Shields, Amarillo.

Glen Dowlen, Jr. Will Sing in Sunday Services

Glen Dowlen, Jr., son of Mr. and Mrs. Glen Dowlen, who is a music major student at the University of Texas, will sing at both the morning and evening services at the Methodist Church Easter Sunday.

At the morning service Mr. Dowlen will sing "Alleluia" by Hummel and in the evening he will sing "In My Father's House Are Many Mansions" by McDermid.

Happy Will Improve Water Supply With \$112,000 Bond Issue

Voters of Happy approved a bond issue of \$112,000 for the purpose of improving the water and sewer system of that town.

Only five votes were cast against the bond issue, with 138 votes approving the expenditure of funds for this purpose.

After various attempts had been made to secure an adequate water supply, it is thought that a permanent water supply had been located.

Public School Pupils Entertained Lions Club Thursday

The fifth grade classes of the Canyon grade school, under the direction of Miss Welch, provided entertainment for the Lions Club at the weekly luncheon Thursday. The students, accompanied at the piano by Miss Welch, sang "Steal Away," "The Caisson Song," "Sweet Evallina," and "Tenting at the Old Camp Ground." The Lions would like to say to all of those 5th graders that, "We enjoyed your music very much, and hope that you can come back later for another program."

Ballots were distributed by Milton Morris, chairman of the nominating committee, preparatory to the nomination of officers for the next year. Bill Whittenburg was a guest of Lion Ed Williams at the luncheon.

Moon Hid Face in Total Eclipse

A total eclipse of the moon was witnessed Tuesday night by scores of local people.

The eclipse started early in the evening while the moon was full, with no clouds to obstruct the vision of observers. As a result of the beautiful evening, many people stayed up to watch the eclipse until near midnight.

Senators are beginning to be swamped by reports from home telling of effects of growing deflation at the same time that the White House continues to try to induce Congress to do something about inflation. By muzzling the turn from inflation to deflation, Mr. Truman appears to have suffered a permanent loss of influence over Congress.

Senators Arthur Vandenberg and Robert Taft are out in the open with their differences over foreign policy and spending policy. Divisions among Republicans on foreign-policy issues are about as sharp as those among Democrats on economic policy.

Businessmen who seek rather large loans from the Reconstruction Finance Corp. are finding that it does not hurt at all to use "influence" to get approval of their loan applications. Loans running up into the millions have been made to individual companies that need capital.

Easter Cards at Warwick's for all members of the family, or your friends.

India rounds up Communists to nip railway sabotage.

Dogs Are Nuisance Lawns and Shrubs Says News Reader

What to do about the stray dogs of Canyon is still the question. A reader writes to the News:

The News can't be beat. I have been reading it for years and expect to keep it up.

What can we do about dogs on our lawns, and gardens, and up-setting trash barrels?

There should be something besides poisoning. We don't want to do that.

A READER.

Red Cross Officers Will Be Named At Friday Nite Meet

All members of the Randall County Red Cross Chapter are invited to a meeting of the chapter to be held Friday night at 8 o'clock at the City Hall for the annual election of officers.

The chapter has raised more than \$1600 in the annual roll call drive this year, half of which will remain in Randall county for relief work.

Tax planners are worried about trends in revenue, with income tax collections running considerably lower than expected. Some interested officials are beginning to question the accuracy of Commerce Department officials on the level of personal incomes. Though incomes are supposed to be rising, they seem to yield less revenue.

President Truman, in private, is becoming highly critical of Democratic leadership in Congress. The President is beginning to compare the present Congress with the Congress that he criticized during the 1948 campaign. Neither appears to rate high in White House esteem.

Senator Scott Lucas, Democratic Leader in a Democratic Senate, is deep in trouble with his colleagues over methods used in trying to hold a majority in line on issues that have Mr. Truman's backing. Senator Lucas is discovering that it is very difficult to drive other Senators to action when they don't want to act.

U. S. military leaders are paying more attention to reports that Russia is working to improve transport lines to the West than to alarmist reports of Russian moves aimed at Iran or Finland. If Russia planned to overrun Europe, she would first need to build up communications in that direction, and any evidence of that build-up is regarded as a matter of concern.

Douglas Marshall Family of Randall County Selected for Ideal Home Management

The Douglas Marshall family in Randall county was selected by the Texas Extension service as a model family which was carrying out the principles of this organization. This

family was featured in a recent issue of *The Extensioner*. The following are quotations from the article:

The Marshall family is young, young in years and in spirit. The par-

ents have the kind of respect for their children that keeps them young and active. They realize it is necessary to stay young to keep up with the children and work on a ranch covering three and a half sections of land. Mrs. Marshall said the first requirement for a good family relationship is for the parents to be happy together and to set good examples for the children to follow.

So when time for selecting the member in the Central home demonstration club to be "family life demonstrator," came around, Mrs. Marshall volunteered. She said, "I was interested because I realized our family needed more recreation in our home and more fun together in outside activities." She felt that being a family life demonstrator offered the chance to do actual planning.

The four goals in her family rela-

tionship plans for the year were "to improve personality traits through being considerate of others by saying 'thank you,' 'excuse me,' and 'please,'" "to serve meals in attractive and congenial manner," "to carry out the family conference idea," and "to add recreational equipment."

The second goal has been reached. The family had bought a round table to use as a dining center. They could "look at each other better" over a round table. Then, too it helped when they had "family conference" or made plans for a picnic or for the show which they would be going into town to see. So their third goal was achieved when they used meal time as "conference time."

The religious side of family life was not neglected. The Marshall family attends church regularly, and Sunday school, too. Good reading material was added to the family bookshelf. A daily newspaper, special magazines like "Jack & Jill" and "National Geographic" for each member as well as some for all to enjoy, and a place for keeping these neatly and conveniently was provided. A book on manners about "Mr. Do and Mr. Don't" seemed well used. A new book given them at Sunday school was their latest addition. Mrs. Marshall said it was the help and interest of all the members of the club and many outside of the club that made that year's demonstration work so profitable and interesting.

Both of the parents are good at leather work. Mr. Marshall "picked up" leather carving while he was in Lubbock in school. He used to spend his time watching a leather worker who eventually taught him the art. Now he can make all his own bridles, belts, book covers, gun scabbards, and bill-folds. He has found it a "paying hobby" too for he can buy old saddles and remake them, or do repair jobs for neighbors.

Being a ranchman by environment and training, he is interested in horses and raises his own. The newest colt was in the lot, but the mother was still in the canyon when we took the picture. He "breaks his own horses" and trains them to suit his own use.

Arvie inherited his carpentering ability. Mr. Marshall builds his own buildings and barns and has his own tool shop.

Each bedroom is planned especially for the person who occupies it. Mary Gladys enjoys the colored scenes on her walls.

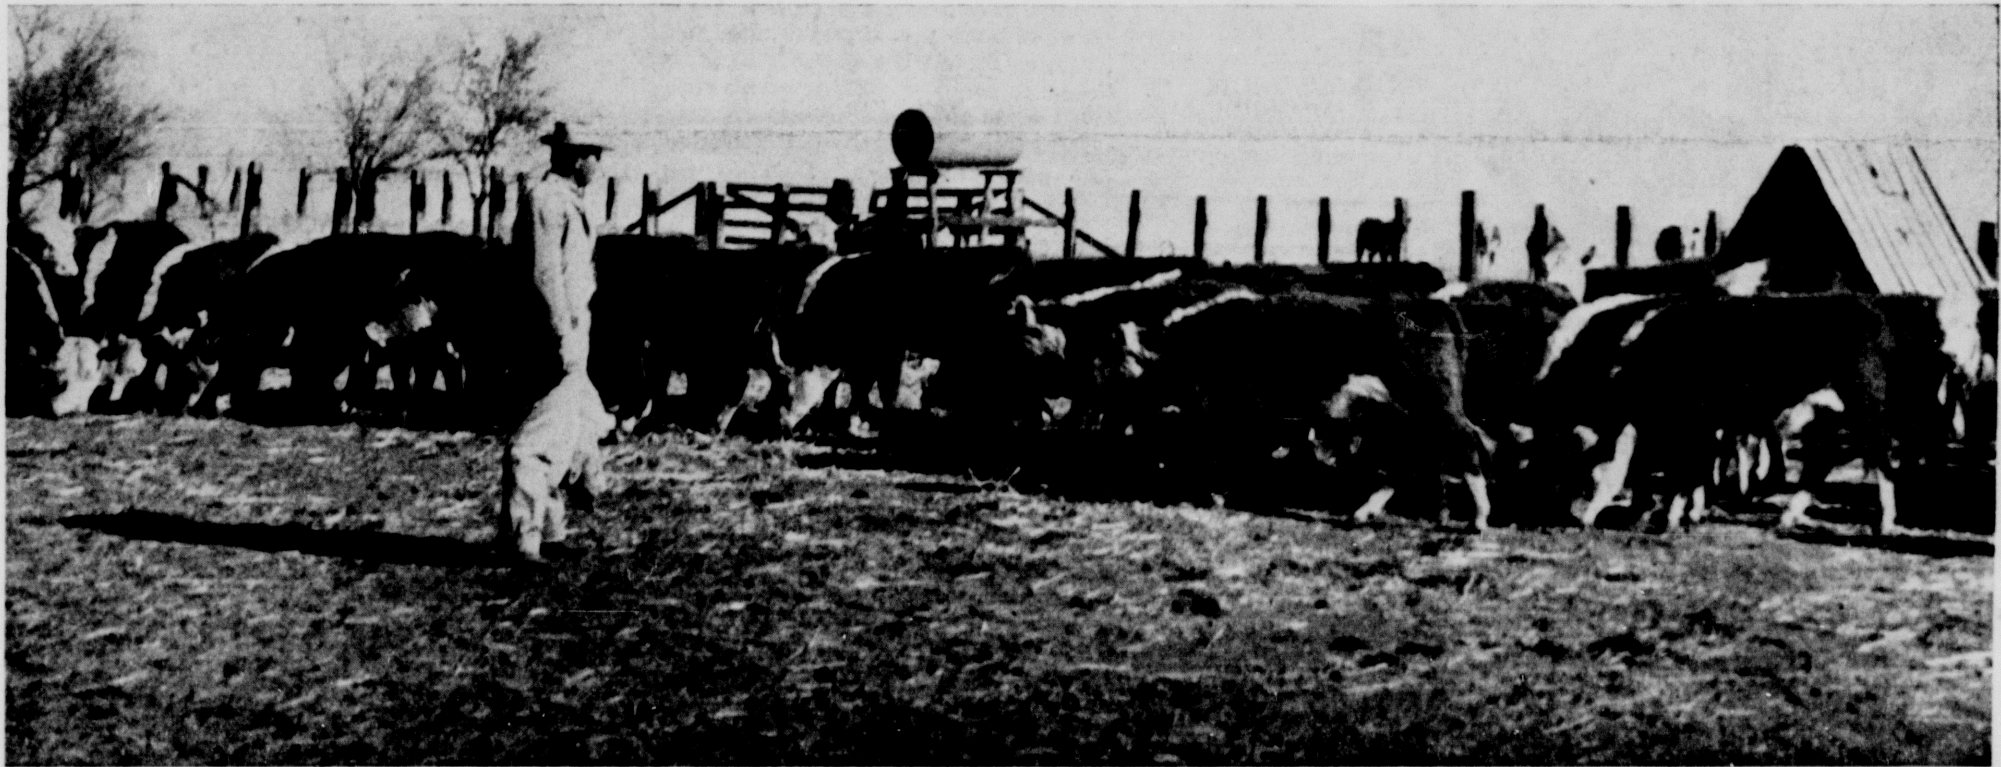

Mr. and Mrs. Marshall keep the record books. A round dining table serves as the family "conference" table.

Each member of the family has a hobby. Tom has acquired the collection of 3,500 stamps his father had started.

The Marshalls work together. Mary Gladys helps her Mother with the kitchen work and the boys help their Dad.

Mr. Marshall buys good stock of calves to feed for market. Training and experience help in this kind of ranching.

Three Children of Mr. and Mrs. Douglas Marshall of Randall County.

Eva Mae Rutledge Wins '48 Gold Star Award in Gray Co.

Eva Mae Rutledge, Gray County's 1948 Gold Star Award winner was presented the Gold Star Pin during National 4-H Club Week. The presentation took place during a 4-H Club radio program with forty-five club members and sponsors participating.

Members of the Blue Ribbon Club gave the 4-H Club Motto, Pledge and Prayer. Alanreed 4-H Club sang "Dreaming." Mrs. Mary Anne Duke, Gray County Home Demonstration Agent, presented the Gold Star pin to Eva Mae, then introduced each 4-H Club sponsor and members of the 4-H Club Committee. These leaders told why they liked working with 4-H Clubs.

Nine of the sixteen sponsors are also members of Home Demonstration Clubs. The plans of the 4-H Sponsors Committee, whose Chair-

T. H. KNIGHTON

Special Underwriter
AMERICAN UNITED
LIFE INSURANCE COMPANY
Phone 456
Canyon, Texas
FLOYD V. STUDER, Supt.

man is Mrs. Clifford Rutledge, of Lefors, are as follows:

That Home Demonstration clubs be prepared to assist the 4-H Sponsors and the 4-H committee when help is needed.

That each H. D. Club adopt a 4-H club and help them with their social and recreation program.

That each club invite the 4-H girls for a second program during summer months.

That each club donate \$5.00 for the 4-H sponsors committee to help finance 4-H club work.

In addition to the 4-H Sponsors Committee, Gray County Home Demonstration Council has set up a 4-H Club Committee. The purpose of this committee is to plan ways by which the Home Demonstration Clubs may help 4-H work by securing sponsors, assisting demonstrators and helping with achievement and recreation activities. Additional plans are as follows:

May—Clothing Revue:

1. To assist agent and sponsors in putting over an outstanding clothing revue on May 14. Urge 100% attendance of the mothers of 4-H club girls entering the review.

2. To encourage all 4-H club girls to enter county clothing revue.

3. To work out arrangements and prizes for the revue.

4. To make arrangements for judges for the revue.

June: Summer 4-H club camp.

1. Plan and help carry through county and district summer camps for all 4-H club girls. Tentative dates for county camp, June 28 and 29.

September, Top O' Texas Fair: Encourage girls to display and enter the Top O' Texas Fair.

December: All county 4-H Club Christmas party early in December.

Additional recognition is planned for 4-H club sponsors who give so freely of their time. Each sponsor's picture, with a story of the club she sponsors will appear in the Pampa News and McLean News. The pictures will appear every few days until every picture has been used.

Visual Education will be used extensively with all phases of the Girls' 4-H Club program in Gray County. The Home Demonstration

Mrs. W. A. Murphy Spends Busy Five H. D. Club Years

Mrs. W. A. Murphy, Lipscomb County THDA Chairman, has been a member of Home Demonstration Club for five years. She was president of Lipscomb club for two years. She has served as council delegate from her club as County THDA Chairman. She has attended THDA meetings at Amarillo and Temple.

Council has recently purchased a kodak 35mm. a film slide projector, a screen and adjusto stand for a 16mm projector made possible by the Gray County Commissioners Court.

Community Centers Established By Hemphill Clubs

In addition to completing demonstrations in landscaping, interior home improvement, and work simplification during 1948, the home demonstration clubs of Hemphill County accomplished worthwhile results with their community and civic goals.

Tri-C club set as one of their goals to clean up and improve the community cemetery. A community work day was set by the club in the spring. A large majority of the families of the community turned out in work clothes, bringing with them a basket lunch and tools. The cemetery had almost grown up in weeds and grass. It took a great deal of hoeing, raking, burning, and leveling to put the grounds in good general condition. A new entrance was made and 6 trees were set near the entrance. A committee located lost graves and marked each of them with cement markers. During the day of work, a cemetery committee was elected and \$300 was raised as a beginning fund for maintenance. This work is being continued this year, with further improvements to be made.

The club members and their husbands spent a day painting the interior of the Blue Ridge school building, which is their community center. The women made new curtains and hung them. 25 folding chairs, a card table, and a 2-burner hot plate were purchased and added to the equipment. Broken windows were replaced. Community recreation for the entire family, sponsored by the home demonstration club, is held at this center once a month. Four special parties for teenagers were also held.

The members made and sent to Boys Ranch 20 pairs of pillow slips and 40 dish towels.

Pleasant Valley club started the year with one of their main goals to improve the school building and turn it into a community center. The club women met at the school building and gave it a thorough cleaning. They removed worn shades and hung muslin curtains which they had decorated with textile painting. The floors were enameled. An old bookcase was turned into a cabinet for storing dishes. A cloak room was turned into a kitchenette. The desks had to be moved off the floor and stored. The club has sponsored community recreation monthly since the building was repaired. All families of the community participate. The club women also spent a day thoroughly cleaning the grounds and the building of the community church.

Home Culture club set out to improve their community cemetery and improve and landscape the school grounds. They sponsored a clean-up and improvement day at the cemetery. A good number of families turned out to help. After cleaning, shrubs and flowers were set out. Landscape plans were made for the school grounds, 112 shrubs were set at the cemetery and on the school grounds. The members made 2 dozen dish towels for the school lunch room.

The club sponsored the organization of a Youth Center at Allison. This youth organization meets semi-monthly for recreation. A chairman, vice-chairman, and secretary were elected from the group of young people. They plan recreation, refreshments, and help plan the budget. Two club members are sponsors for the group. This organization for teenagers has been most successful. They turn out in large numbers and give good cooperation. A vacant building which was formerly the bank, was rented. A family of the community contributes the rent each month.

The Lone Star club planned to

remodel the old unused school building and turn it into a community center for monthly recreation. Their building had not been in use for so many years that an election could not even be held there. The club set 2 days of work for families of the community, and were highly pleased with the turnout. Two coats of paint were applied to the outside of the building. After a thorough cleaning the inside was painted. Broken window panes were replaced and all received an application of putty. The desks were stored and a cabinet turned into a storage space for dishes. The club bought a 4-burner kerosene stove to place in the building. Plans have been made to have the building wired when the REA line comes that way. Since this community had no meeting place of any kind that was in shape to use, everyone is very proud of the remodeled school building. The first community party was held around Thanksgiving. The club plans for a community Christmas tree and program, which was the first in this community in years.

Each club member made 2 pairs of shorts and put in "T" shirts and sox to be sent to Boys Ranch.

County Line set as their goal to sponsor recreation for the community. Since they have no community building of any type, they co-operated with Pleasant Valley and use their community center. They have been able to sponsor community recreation monthly. They also sent boxes of used clothing to the Navajo Indian Reservation in New Mexico and sent a package through CARE to rural France. The club women thoroughly cleaned the building and grounds of their community church.

Canadian club, which is a town club, co-operated with the Bazaar which supports the county library. They contributed to the Polio fund.

Moderners club made plans for improving their community center. Two outdoor croquet courts were constructed at the center, which is the MK school building. The courts were lighted for the families to use in the evenings. The club sponsors community recreation monthly.

A community library was established. Families contributed books and others were borrowed from the loan library at Austin. Books were included for all ages. The library was left at the community center so they would be accessible to all families. The club sponsored the com-

H. D. C. Interest In Randall Co. Is Kept High

Mrs. W. C. Angel, Canyon Chairman, Randall County Home Demonstration Council.

There are fourteen women's home demonstration clubs and five girls' 4-H clubs in Randall County. Two of the women's clubs have just been organized.

The girls are doing work in clothing and food preparation. They have a county dress review planned for early May and will send the winner to the State Dress Review at College Station in June.

The women are carrying landscaping and frozen foods as their two main demonstrations for the year.

Sixteen first-year demonstrations in landscaping are under way. All have carefully made plans and are well started. There are ten second

year demonstrations in landscaping. In August the club members organized the community to be sprayed with a 5% solution of DDT. Thirty farmsteads were sprayed with power sprayers.

These are some of the ways in which communities of Hemphill County have reaped the results of home demonstration work.

or third year landscape demonstration and several of much longer standing that are still kept at demonstration level.

Five new windbreak plantings have been made this spring. About 2,000 rose bushes have been put out this spring as a direct result of this landscape program.

Robert Murphy, Ambassador and political adviser of Gen. Lucius Clay until recently; William Draper, until recently Under Secretary of the Army handling German matters, and Allen Dulles, brother of John Foster Dulles, are all in the running for High Commissioner in Germany if the west creates a German state.

William S. Parsons, U. S. N. Admiral, director of Atomic Defense: "An atomic air burst will render useless almost any feasible above-ground structure at distances up to about half a mile."

Three to four thousand children, contrary to law, are placed in Virginia jails every year.—Judge Odesa J. Bailey, Roanoke, Va., Juvenile Court.

A man reveals himself in every glance and step and movement and rest.—R. W. Emerson.

Every man must scratch his head with his own nails.—Arab Proverb.

The Beautiful Chrysler
Silver Anniversary Model

Come look inside... come look under the hood... come see the superb breeding and advanced engineering that makes this the most exciting, new beautiful Chrysler of all time.

Here in the Silver Anniversary Chrysler is the climax of 25 years of forward-looking common sense and imagination in engineering and research. Tailored to taste... here is well-bred beauty that reflects the perfection of the engineering that makes this the greatest Chrysler value in history.

Wider chair-height seats—plenty of headroom and shoulder room—plenty of legroom—more horsepower than ever before from the mighty Spitfire High Compression engine, the leader in high compression performance. Prestomatic Fluid Drive Transmission—the Safety-Level-Ride—exclusive Safety-Rim wheels that make it almost impossible to throw a tire in case of blow-out—more than 50 advances in safety, comfort, convenience and performance! These will make seeing the new beautiful Chrysler an experience you'll long remember. Come in today—for the greatest car value we've ever offered!

Lipscomb County Club Was Active During Year 1948

In 1948 the Home Demonstration Clubs in Lipscomb County selected 4-H Clubs as one of the programs they would stress.

They provided food for the boys 4-H calf show in 1948 and this year helped the 4-H girls to organize and furnished the food for the crowd. The girls made \$114.00 from the food sale. This money will be used for a County Camp this summer.

The Girls 4-H Clubs had a clothing exhibit at the Fair Building in Lipscomb, February 25, 1949. This exhibit was held at the same time as the 4-H livestock exhibit. The first year girls had made aprons and the second year girls pajamas. In addition, to the 33 pairs of pajamas and 36 aprons, each 4-H club had an educational exhibit.

Higgins 4-H club had an exhibit on setting the table. Dishes and silver for this were furnished by the Laubhan Hardware at Higgins. The girls had free material on table setting for distribution.

Darrouzett had an exhibit on good sewing equipment. They had posters listing the equipment and had the equipment in the booth. They also had a check sheet for visitors to check their own sewing supplies to see how they rated.

Booker had a set of food posters showing proper care and use of food. Mrs. Morris Smith, 4-H sponsor at Booker, had a sewing box on exhibit, too.

Follett had an exhibit on cotton construction. They showed the various steps in putting a zipper in a dress placket. These steps were made up in material and directions printed on the posters. Preparation of this exhibit was under the supervision of Elinor Broyles, President of Follett 4-H Club.

An exhibit from the Home Demonstration Clubs on "How Well Fed Are We?" showed a color-wheel completely painted for a maximum diet. There were forty individual charts that had been painted by Home Demonstration Club Women in 1948 and only one of these was completely painted. The charts showed that more diets were low in milk and vegetables than in any other food.

Mrs. Beatrice Dixon, Lipscomb, Mrs. R. B. Ransom, Gem City and Mrs. Max Suess from Booker judged the clothing exhibit.

First place on pajamas went to Jacquita Gray, Higgins; second place, Coeta Plain, Follett and third place, Ellen Broyles from Follett.

Evelin Fanning from Booker was first place winner in the apron division. Second place went to Maureen Fausset, Darrouzett and third place to Norma Joyce Helfenbein, Booker.

The County Dress Revue for girls will be held the first week in May. The winner in this contest will be given a trip to the State Dress Revue by the Home Demonstration Council. Plans are to hold the Dress Revue at night and for the Home Demonstration women to model dresses and accessories which they have made. The Dress Revue will be followed by a pie supper.

There are 100 4-H girls and 125 4-H boys in Lipscomb County.

The girls 4-H sponsors are Mrs. Morris Smith, Booker; Mrs. Alfred Fausset, Darrouzett; Mrs. Fred Born, Follett; and Mrs. Clint Scott, Higgins.

Mrs. O. T. Glasscock Served Club In All Offices

Mrs. O. T. Glasscock, Shamrock, Texas is a charter member of the 3 Leaf Home Demonstration Club. This club was organized in 1928. She has held every office in her club, and has been council secretary-treasurer for two years. She is the THDA Chairman of Wheeler County.

Mrs. Glasscock is active in church work and in the Rebekah Lodge. She is active in Red Cross work in her community and is always ready to serve those who need her.

Today's economic problem is how to prevent our elastic currency from becoming a stretch of the imagination.

Mrs. J. W. Morton Member Moore Co. Club for 17 Years

Mrs. J. W. Morton, Jr., is a charter member of Palo Duro Club, which was organized in 1932. She was Moore County's first council chairman. She has held all offices in her club and has been clothing and food demonstrator. Her attendance record at club and council meetings has been good. She has held almost all of the council offices and is the present THDA Chairman for Moore County and a member of the State Market Committee for THDA.

Ochiltree Family Achieve High Goal Aided by Club Ideal

The Missouri Avenue Home Demonstration Club was organized in the early 1930's. The club was so named because a majority of the members lived on one long country road and they had come to the high plains of Texas from the state of Missouri, it seemed only appropriate that the club be named for that state.

Since its organization the keen interest of the members has kept the club growing in purpose as well as in numbers. At the present time there are twenty-five active members on the roll with an average attendance of fifteen at regular meetings.

Perhaps one of the most outstanding records in the club is that of Mrs. Earl McGarraugh. Mrs. McGarraugh joined the club shortly after her marriage, she was a former 4-H club member so club work was not entirely new to her. The McGarraughs started house keeping in a small one room house on his father's farm. At this time people were still suffering from the depression and effect of poor crop years so it was several years before the McGarraughs with their small son moved to a larger house. This new house was new only to the family and was so filled with dust from the blowing dust storms of the past few years that it took weeks of labor with some help from the neighbors to make the house livable. But with the patience and hard work the house was made very livable; but it was not what is called a modern farm home. Water was piped to the kitchen but this, while a great help, was not too satisfactory as the water would freeze in early winter and all too often remain in that condition until spring.

The family has always kept a large flock of laying hens and during the hard years they milked cows and raised hogs and steers. At all times Mrs. McGarraugh helped with all types of work whether it was driving a tractor, milking cows or cooking for large crews of men. Besides helping in every conceivable manner Mrs. McGarraugh is doing a remarkable job of raising four sons.

Now for the climax of this story which is the story of many high plains families. Good crops, good prices, large acreages and hard work helped many farm families to attain success in the financial world and so to gain a higher standard of living. During the past year the McGarraugh family added a dream house to their ever growing number of buildings on their farm. This house is a nine room modern

building of red rock. The basement is equipped to handle the harvest crews for meals, the men live in the bunk house. There is a utility room off the kitchen and the bedrooms and other rooms are planned with little boys in mind, such as the use of washable tile where feasible. The kitchen is complete with dish washer and electric stove and Youngstown cabinets. The large living room with a gas fire place is an ideal room for family life and entertainment.

The yard is fenced with a stone wall and a complete sprinkling irrigation system is being installed to take care of the recently landscaped and planted yard and the windbreak to the north of the house. The garage was not rebuilt but was rocked to match the house.

The club members surprised the McGarraugh family with a community house warming after the house was completed. Now the small sons of the family are in the process of making the new house into a real home with lots of help from their mother.

President Truman, in his private meetings with businessmen, is assuring them that they have nothing to fear from him. At the same time the President is telling leaders of labor that he is ready to go down the line fighting for the things that they want.

We haven't read all the good books, much less the worse ones.

Ochiltree County Chairman Active Community Worker

Mrs. J. H. Kershaw, THDA Chairman of Ochiltree County is a member of the Missouri Avenue Club, which she served as president for two years. She has also held the following offices in her club and council: secretary, council delegate, council chairman. She has been a bedroom, clothing, food and yard demonstrator in the past. Mrs. Kershaw is active in her

church and in club work in her community.

Mr. and Mrs. Kershaw and their daughter have as their hobby photography. They own a motion picture camera and a projector.

HE MEANT BUSINESS

Mac's wife was ill, and Mac was running for the undertaker. "But," remonstrated a friend who met him, "it's no undertaker you want. It's a doctor."

"Nay, Nay," was Mac's reply, "I canna afford to deal wi' middlemen."

TO WHOM

Tommy: "What's the matter, has your girl turned you down?"

Billy: "Yes, I haven't heard from her for a week."

Tommy: "I thought she said she would write every day."

Billy: "Yes, but she didn't say to whom."

About \$2,000,000,000 in checks to 14,000,000 veterans, involving refunds on premiums for wartime insurance, are likely to be held up until 1950. Some officials feel that the economic, and maybe political, effect of these checks would be bigger next year than this.

Claude Boudet, editor, non-communist French newspaper: "Russian panic deepens at the American strategic preparations and at the economic preparations which support this strategy."

CANYON CHAMBER OF COMMERCE

Mrs. Campbell Elected Head of State Group

Panhandle farm wife, Mrs. R. L. Campbell of Deaf Smith County is the newly elected president of the Texas Home Demonstration Club, and this honor leads to her being named "Woman of the Year," by one of the leading farm magazines of the southwest.

As state president of this union of interested and alert farm women, Mrs. Campbell has endorsed a "music in the home" campaign. "Family music for better family relationships throughout Texas communities," has been almost a slogan with her.

She was instrumental in getting an official song book for Home Demonstration Clubs of Texas, but this is only one of her many activities in this club work.

A charter member of the Fairview Club of Deaf Smith, she has served in all the major offices of the club, and as council member she served as chairman, secretary, treasurer, and parliamentarian.

She was vice-president of District I for three years, and presided at two district meetings and helped plan the state meeting. At the time of her election as president last October, she was acting Vice-President at large of the Association.

Mrs. Campbell has been a rural wife all her married life. Her husband, whom she met at a church social, took her from Canyon where she was attending college, out to live on his ranch in the northeast corner of Deaf Smith County.

On the ranch, she learned not only to keep house and to live away from town, but she learned to ride horses and shoot coyotes. They are still two of her favorite hobbies.

"But my favorite hobby is just being the best homemaker I can," she said one day.

The Campbells have two children, their daughter, is now living in St. Louis. Their son, Byron Campbell and his wife and two children are living on the Campbell ranch.

"The home demonstration clubs of Texas have helped to give rural women most of the advantages which town women enjoy, and in addition farm women have the added advantage of independence," she has said.

Wing-T Offense For '49 Buffaloes

The 1949 grid year is now underway. Coach Frank Kimbrough sent 48 hopefuls through a stiff workout Tuesday afternoon for the initial spring exercises.

With a new winged-T formation for the gridders to work from, the charges went through more than two hours of grueling ground work and some earnest body contact under the direction of coaches Kimbrough, Hatcher Brown, Odie Crowell and Borden Price.

There was no separation of players in this initial workout and all boys had a chance to show his worth.

Included among the 48 players reporting was Bill Eudy from McLean, who will be a candidate for the freshman squad next fall.

Other players reporting were: Don Adams, Tom Airhart, Grady Allen,

District One Vice-President From Near Pampa

Mrs. W. E. Melton, District One Vice-President is serving her first year in that office.

Mrs. Melton has been a farm and ranch homemaker for 26 years. She now lives on a ranch near Pampa.

John Arnold, Oscar Ashley, Walker Bateman, Vic Bates, Doc Bates, Donald Briggs, Pete Bromley, Johnny Cardinal, Leon Chapman, Bill Cross, J. D. Covington, Jimmie Draper, Roy Lee Dunn, Wesley Earp, Glenn Glasscock, Charles Hester, Wayne Hill, Johnnie Hicks, Ernest Kendrick, G. H. Keeton, Charles Kitchens, Bob Kelley, Joe Lopez, Gene Mayfield, Junior Melton and Carl Myers.

Joe Ogden, Bill Patterson, Bill Pevehouse, John Poindexter, Sam Raburn, Darold Roberson, E. C. Seifert, Harry Smith, Joe Spann, Bill Spencer, Wayne Sullivan, Weldon Trice, Lon Tucker, Clinton Williams, Frank Wise, Bruce Womack and Deane Wright.

What we cannot understand is why any Russian would want to come into the U. S. A., even on a visit, if everything is so good in the Soviet country.

There's some justification, after all for the college boy getting behind in his studies—it gives him a chance to pursue them.

Few industrialists believe that their concerns have made excessive profits.

Young Daughter Voices Ga-Ga As She Watches Her Da-Da

Who said Caesar was the only person who could do two things at once? Well, here's proof that he no longer holds that record, because Raymond Perkins (above) is busy at a combination baby-sitting-chair-making job.

This combination job is not a regular one for Father, however. The Perkins, both seniors from Pampa, have their classes arranged so that one or the other is always free to take care of their five-months-old daughter, Jorja Ann.

Mr. and Mrs. Perkins have been in school at WT for the past two years. Mr. Perkins is an industrial arts major.

Congress is far more cautious than expected.

Help Keep Canyon Clean!

Congress Goes Slow in Program of the President

During the campaign, President Truman's heaviest guns were trained on the Republican-controlled 80th Congress. He aimed everything in the arsenal at it and, as the election result proved, it paid off in the precious coin of votes.

Now the Democratic-controlled 81st Congress has been a study in slow motion. Representative Jackson of California said, "I'm glad Truman called the 80th the second worst Congress in history. It looks like you fellows will make the grade for top honors." Senator Brewster of Maine observed that "practically the only action of the 81st Congress to date has been to increase the Presidential salary." Senator Baldwin of Connecticut asked, "What are the great, earth-shaking, country-saving, highly patriotic measures that have been passed by the present Congress to date?"

It hardly comes under the head of flash news to report that the members of one major party are doing all they can to make hay at the expense of the other major party. Administration leaders in House and Senate have been able to come up with only feeble defenses of the 81st Congress. The plain fact is that the all-inclusive Truman program has fallen into the doldrums. There is small change of the larger part of it becoming law. Majority sentiment in Congress favors making haste slowly.

The great social security bill is an example. It would raise the cost from the present \$1,800,000,000 a year to something like \$6,000,000,000. In the words of Newsweek, "The reaction of Congress to the revolutionary extension . . . ranged from a quiet lack of enthusiasm to outright hostility. There was bipartisan agreement that neither farmers nor housewives would tolerate the nagging bookkeeping required. . . . There was little predisposition to increase payroll taxes drastically at this time."

The matter of keeping books in accordance with the Federal laws is, in the view of many, a much more important problem than is generally supposed. Business finds more and more of its attention and resources given to filling out forms and dealing with government bureaus. And this burden is often heaviest on small business. The big business, with its established legal, accounting and auditing departments is frequently able to adjust itself to new regulations much more easily than a small concern. That fact has Congress worried. It isn't eager to subject more of the population to Federal red tape.

What it all adds up to is that this

Heart of Your Natural Gas Service

West Texas Gas Company's Turkey Creek Compressor Station, pictured above, is located in the Panhandle Gas Field near Fritch, Texas. This station starts the movement of natural gas through our main transmission line to serve you.

Compressors and Maintenance Cost More . . . But Your Gas Rates are at Pre-War Prices

In 1927 when West Texas Gas Company first started furnishing you natural gas service for your home and business, compressors were not needed. As the years passed, more and more people moved to this area. This brought new demands for natural gas service. It also meant more and larger compressor stations to maintain movement of natural gas.

In 1938 Turkey Creek Compressor station, shown above, was started. Three 250-horsepower compressors were installed. In 1941 two 400-horsepower units were added to the station. In 1942 another 400-horsepower engine was added, and in 1947 still another 400-horsepower engine was installed. And this year two more 400-horsepower compressors will be installed, making the total 3,150 horsepower, four times greater than the original plant.

West Texas Gas Company has twenty employees at its Turkey Creek Compressor Station.

Price of 400-horsepower compressors bought by West Texas Gas Company in 1948 was over 92 per cent higher than the same type units purchased by the company in 1940. Compressors delivered this year cost us over 100 per cent more than the 1940 price.

Since 1940 equipment, wages, steel pipe and other items necessary to furnish you natural gas service have made a rapid climb in price.

Despite the increased cost of compressors, steel pipe, wages, valves, meters and other items . . . natural gas service for your home and business is still furnished you at pre-war prices!

West Texas Gas Company

HELPING BUILD WEST TEXAS SINCE 1927

Do you tell time by Baby?

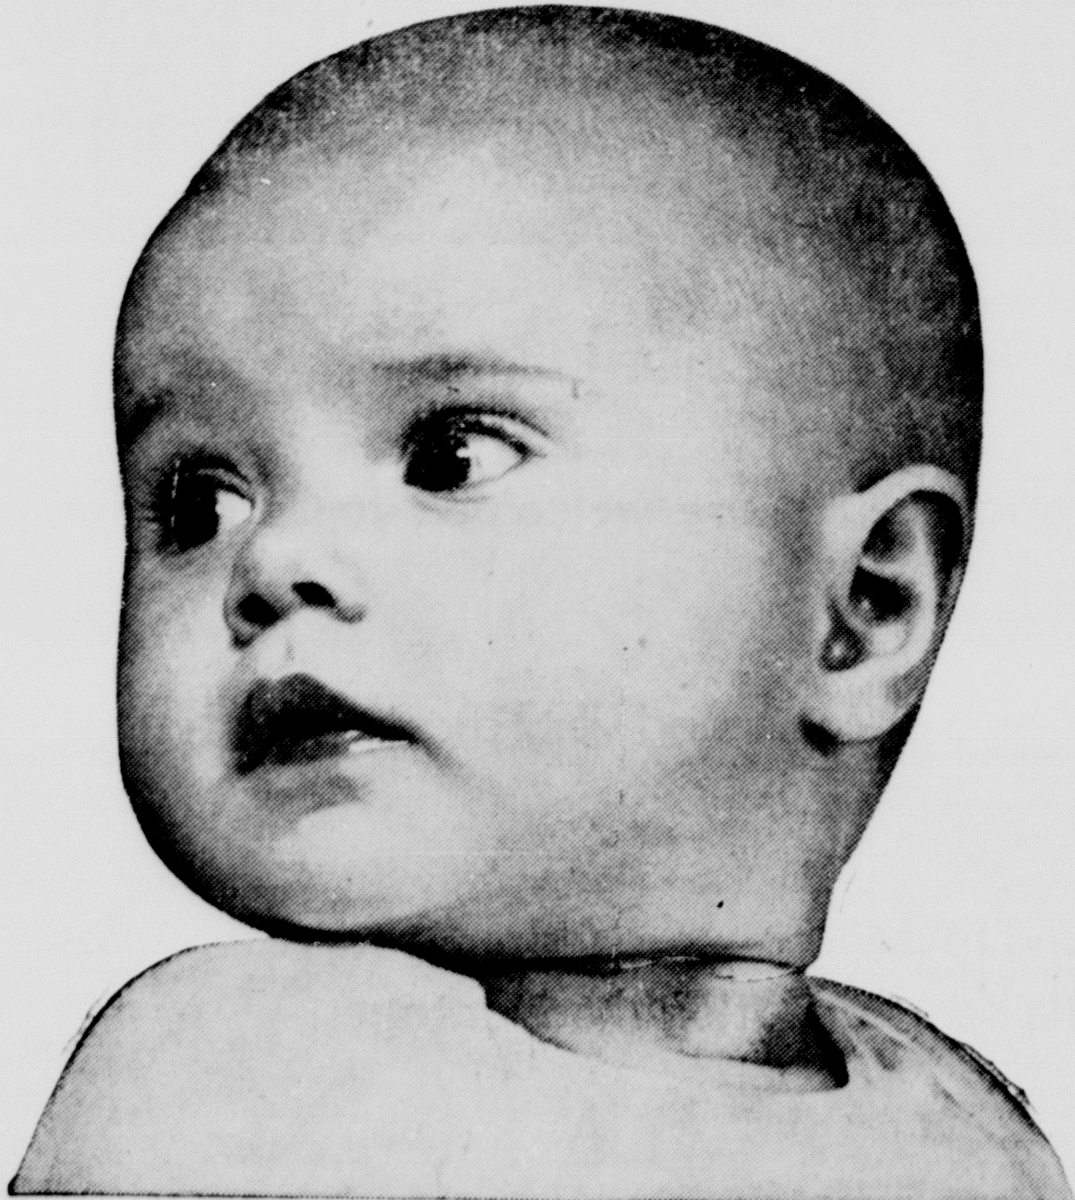

At his feeding times, yes. He sounds off on the dot when a meal's due. But the rest of your day, you're wise to depend on electric clocks.

With a baby in the house, it's surprising how much you depend on electric service — to prepare and refrigerate his food, heat water for his bath and laundry, wash his clothes, and so on.

Of course, you depend on electricity to help take the work out of your housework too. Always ready, it lends a willing hand with heavy chores, provides comfort, ease and even entertainment. And best of all, you can depend on its economy — for what other item in your budget does so much for so little?

Your friends and neighbors in this company — under sound business management — are continually using their technical skill and practical experience to keep electricity the biggest bargain in that budget of yours. You can depend on that too!

Wild Blue Yonder Calling to West Texas State Students of Aviation

Reid, Nesbitt, Webb Are Personnel Of Fast-Growing College Air Service

Aspirants to hit the wild blue yonder have a chance to fulfill their ambitions here at West Texas State.

Not only is the opportunity to learn flying available this semester, it has been on the college curriculum since 1938 in some form.

In the fall of 1948, the college purchased the flight school from G. W. Cox, Randall County farmer. G. W. Webb was installed as manager of the field and Jack Nesbitt hired as instructor. Mr. Nesbitt was a pilot during the war.

From its mediocre beginning the airport has grown to compose a field covering more than 100 acres with a complement of three airplanes. The planes are a Bellanca Crusair, an Aeronca Chief and an Aeronca Champion.

A course in Aviation, course 201 in the catalogue, consists of ground school instruction with a minimum of 50 class hours of instruction, 18 hours of dual flying and 17 hours of solo flying. Upon completion of the course, three hours credit is given the student and he is awarded his pilot's license.

At the present time the following students are enrolled in the flight class: Joe Wilson, Brian, Amarillo; J. L. Adams, Crowell; Kenneth E. Patton, Canyon; Douglas Hawk, Perryton; Luther Glenn Rhine, Lockney; John Louis Bundren, Amarillo; Lyle Green, Cedar Springs, Michigan; Horace H. Helton, Canyon; L. E. Thompson, Canyon; J. M. White, Canyon; J. M. Sollis, Crowell; and W. B. Cretzinger.

The work in Aviation is given by the Canyon Aviation Service, Inc., a certified flying school which has been approved by the State Approving Agency and recognized by the Veterans Administration.

Ted Reid is in charge of flying at the college.

Since aviation began at West Texas State there have been no casualties of any kind. All possible precautions are taken to prevent mishaps.

Work is being done toward the completion of an airport to be owned and operated by the college. It is expected that the field will be ready for use by the beginning of the summer term.

'The Rock' Tops Lent Observance

"The Rock", a Bible drama based on the life of Simon Peter, which was dedicated to Dr. J. A. Hill, president emeritus of West Texas State College, last August, will be repeated as a part of the Lenten observance at WT.

It will be given Thursday, April 14 at 8 p.m. in the main auditorium. No admission will be charged.

Graduated students will return to fill their former roles. Wendell Cain, director of speech and drama at White Deer, will again have the dramatic role of Peter. Patricia Jean Smith, teacher of speech at Portales, N. M., will interpret Mary of Magdala and Betty Brown, Plainview speech teacher, will return to assist William A. Moore, WT instructor, with the production. Other members of the cast are Sybil Ann Gillis, P. J. Neff, Canyon; Frances Lynn Townes, Amarillo; Harold Mayfield, Childress; Wayne Rankin, Plainview and A. B. Smith, Wellington.

New Radio Show Features Strings

Newest of WT radio shows to hit the Panhandle airways is the String Quintet from the West Texas State orchestra.

To be aired each Monday afternoon from 4 until 4:15 over Station KAMQ, the program "Strings a la Mode" will broadcast a series of six shows of which this Monday's will be the second.

The quintet is composed of Donna Wilson, 1st violinist; June Wimberly, 2nd violinist; Margaret Hand, violist; Bill Latson, cellist; and Tom Knighton, bass. On some of the programs the quintet will be joined by Charlie Ramsey, pianist.

BLIND EYE TO THE TELESCOPE
Conductor: "Can't you see the sign 'No Smoking'?"

Sailor: "Sure, mate, that's plain enough. But there are so many dippy signs here. Looka there, one says, 'Wear Nemo Corsets.' So, I ain't paying attention to any of them."

Robert A. Taft, U. S. Senator from Ohio: "Nor can any political liberty long exist if economic liberty is destroyed."

Jawaharlal Nehru, Prime Minister to India: "Civil liberties cannot include the right to preach and practice violence or sabotage."

Happy Birthday

Vandale Essay Deadline May 1

All entries in the Vandale Historical Essay contest must be in the hands of the Society by May 1, announced Dr. L. P. Sheffy this week. No papers will be accepted after this date.

The Vandale Essay contest is an annual event sponsored by the Panhandle Plains Historical Society and must be written on any phase of Plains history.

Awards to winners will be presented at the Society's regular meeting here May 13 and 14. David M. Warren, Panhandle, is president of the Society.

Newman Attends High School Clinic

M. J. Newman, band director, has completed a tour of Plains high schools where he conducted band clinics.

Last week Mr. Newman did clinical work with 8 bands in Whiteface and followed that with individual work with bands at Borger, Dumas, Hereford and Canyon.

Next Thursday he will be in Shamrock for a day's band work there and move on to Sayre, Oklahoma on Monday, April 18 and Canadian, Tuesday, April 19.

WT Student Receives Operation And Becomes Major in Speech

A life-long ambition to work in radio or dramatics now has a likely chance to be fulfilled.

Dan Priest, freshman student who lives at 3415 Hayden in Amarillo, has wanted to be able to make his way in life by using his voice either in radio or dramatics but has been kept from his ambition by his perpetual hoarseness. As long as he can remember he has been unable to speak very loudly and his voice had no resonance.

Recently, Priest consulted Dr. G. R. Chase, ear, eye, nose and throat specialist in Amarillo, who found that Priest had a growth on his vocal chords. The growth was somewhat like a blood blister. The vocal chords become irritated by over-talking, singing or yelling. The strain left a sore place which healed over and left a scar. The scar prevented proper function of the voice.

The growth was rare, but the operation to remove it was not serious. Position of a growth on the vocal chords determines the amount of trouble it will give a person. Bing Crosby has the same sort of growth, but his is situated so as to cause no difficulty.

Dr. Chase removed Priest's scar Thursday, March 24, at the Veterans' Hospital in Amarillo. There is very little hoarseness in Priest's voice now and he experiences no strain while talking.

Priest was in the Navy for five years and was discharged in New York. Before his discharge, he went to see the head of the Theodore Irvine School of Dramatics in New York City, but was advised to study some other field because of the difficulty with his voice. Consequently, when he entered WT he enrolled for a general academic course, but now intends to become a speech major.

Universities were established in South America and Mexico before one was established in the United States.

Land on this side of the Rio Grande, pasture land, is worth 20 times as much as it is in Mexico.

Tom Seifert, aviation student, shown in the upper left picture landing the AT6 owned by West Texas State. In the center, officials shown before one of the planes at the airport are, left to right, Jack Nesbitt, instructor; G. W. Webb, manager of the airport; and Ted Reid, Co-ordinator of Veterans' Affairs at West Texas State College. First echelon maintenance on the ground being performed by Tom Seifert, student in the aviation class.

Private initiative seems to function best when liberally supported by public funds.

Men who measure their progress by that of other men usually go short distances.

NOTICE TO THE CREDITORS AND DEBTORS OF THE ESTATE OF FREDERICH SCHUETTE, DECEASED

Notice is hereby given that original letters testamentary upon the estate of Frederick Schuette, deceased, were granted to me, the undersigned, on this the 16th day of March, 1949, by the County Court of Randall County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post office address is Canyon, Randall County, Texas.

IDA SCHUETTE
Executrix of the Estate of Frederick Schuette.

From the days of Paul, the Christian world has insisted that the Cross and the Empty Tomb must be kept together. Yet one is often associated with darkness and the other with light. Isn't Calvary black and Easter bright? *If the Cross is blackness, it is the darkness before the Dawn; it is the Sacrifice before the triumph.*

For Jesus there was light all the way; both Calvary and the Resurrection had become a part of the loving will of God. For He had passed through Gethsemane; there He had accepted the *via dolorosa* as the path of blessing; He was never alone on that fateful Friday, for He walked with the Father God. The world may have lain in darkness at the Crucifixion, but there was no darkness in the soul of the Man of Galilee; He was the Son of God and had dedicated himself to the Father's will. To the world there was Death and the dark; it was Black Friday. But to the seeing soul of Jesus Christ there was Life and the light; it was Good Friday.

And so it has become for the Christian world. The Man who arose from the dead on Easter morning had carried a Cross on Friday. Perhaps Easter will mean most to those of us who have learned during Lent to bear as well as to wear a Cross. The Christian symbol was not intended to refer only to the Cross of Jesus; we set the Cross atop our churches and we exalt the Cross within the Church, representing a way of life. It is God's way as well as the way of Jesus; God has forever carried a Cross, and with a smile upon His face. Godly women and men have ever carried a Cross and it has brought joy to their hearts and blessings to mankind. For the Cross spells Life for all of us; and he lives best and knows the deepest joy who has chosen to bear his Cross as he discovers in it the will of his God. *Most blessed is he who, like his God, can carry the Cross with a smile.*

The Cross and the Tomb have both been snatched from their association with Death; for they have been transformed by love and self-giving and by a Presence of radiance and glory. *He lives and we, too, shall live, in the measure in which we "learn to kiss the Cross," our cross as well as His.*

Wheeler County Brings Report of Busy Year

Wheeler County has ten Home Demonstration Clubs with 185 members, and eleven 4-H girls clubs with 235 members.

Mrs. Emma May Hastings is the Home Demonstration Agent, Genevieve Morton is the Assistant Home Demonstration Agent. Mrs. O. T. Glasscock, Shamrock, is T. H. D. A. chairman. Council officers are: Mrs. E. E. Sheegog, chairman; Mrs. Walter Williams, secretary; Mrs. Wesley Leake, treasurer; Mrs. Ernest Zybach, reporter.

The council members for 1948, and the incoming council for 1949 met the 27th of November, 1948 for a covered dish luncheon and annual meeting. Visiting and getting acquainted was enjoyed. Annual reports showed the following interesting items. Briscoe had a club fair with each member having an exhibit of her work in September. Each Briscoe 4-H club girl was given a gift by the Home Demonstration club. China Flat club made a quilt and sold it to raise funds. They had a covered dish luncheon. The husbands came from work as they were and the dirtiest was given a cake of soap.

Good Neighbors and 3-Leaf clubs each sponsored community picnics. 3-Leaf has a covered dish luncheon for members and husbands (who can come) once a month. Good Neighbors is sponsoring community 42 parties. Lelia club gave the \$5.00 they won at the county fair to the P. T. A. Myrtle raised enough money selling food at farm sales to donate \$20.00 to the Kelton school cafeteria and buy each member of the club a blanket for the Christmas tree. Pakan club sponsored the or-

ganization of a community club which entered the Farmer-Stockman Neighborhood Improvement Contest and bought a community center building. This building is being equipped with complete kitchen and living room. Pakan club owns a rug loom and makes rag rugs for members and to sell. Wheeler club raised considerable funds selling cards, and hangers, and renting curtain stretchers owned by the club. A list of books on the T. H. D. A. reading list were borrowed from the State Library, Austin, and read by Wheeler club members and others. Young Matrons club of Shamrock is made of young wives and mothers who are very enthusiastic. They raised funds by a bake sale.

Programs about Home Demonstration and 4-H club work are being given weekly over KEVA, Shamrock radio station. The first two gave the history of Extension work in Wheeler County and have increased or renewed interest in the same.

The current major demonstration for H. D. clubs are: Home Improvement and Clothing. In February, 65 pairs of leather gloves were made or started at club meetings, and others are being made now. During March, landscaping was worked on with several yards being started or improved.

I feel good. I'll take the road trips and I'll manage from the bench. . . I'm going to remain boss, not because of stubbornness or pride, but because I have been told I'm quite capable. . . I think I would die in a month if I were out of baseball.—Connie Mack, 86, Philadelphia Athletics manager.

The Sweeneys are here, the McGintys are here but, in the immortal words of President Truman, there are no sons of Britain here—C. Walter McCarty, editorial director, the Indianapolis News, at Ancient Order of Hibernians meeting.

We need a system of residence and community life which retains the attractions of the fraternity house without the snobbery on which the fraternity house rests.—Dr. Harold Taylor, president Sarah Lawrence College.

Clark Clifford, White House Counsel with close ties in the New Deal wing of the Administration, is credited with advising the President to do battle with Congress on policy issues. When Congress showed that it could win the fight, Mr. Truman took advice from others.

No law can oblige a man to abandon his own preservation.—Thomas Hobbes.

Let another man praise thee, and not thine own mouth.—Proverbs 7-2.

Impressive Records Made In Moore County

Secrets? You don't like secrets, do you? Then don't read this, for you may learn some. No Moore County club women wanted a story circulating in the district about her—at least that's the way it seemed, so Agent Virdee P. Wheeler, began checking.

Nine Home Demonstration clubs reported at council interesting and varied programs since January 1.

(1) Sunray Club, through the assistance of the Carl McDowells of Palo Duro, gave two \$25.00 packages to Boys' Ranch, Amarillo.

(2) Bivins-Exell club reported through their president, Mrs. J. C. Wilshire, that their project for the year is landscaping the recreation center at Exell. The club raised money for this project by having a home talent night. The entertainment was free, but the club made \$40.00 selling cakes and coffee. They have planted 6 trees and 36 shrubs at the center.

(3) All clubs have studied Mexico, but Smelter Club tops the list by having invited the Mexican Consul from Amarillo to speak to their club on Mexico. He also showed pictures to this club. He was accompanied by the Catholic Father at Dumas. Smelter has replenished their treasury by having a bake sale.

(4) Panhandle-Eastern Club, over near Stinnett, figured a unique way of adding money to their treasury. They divided their club into three teams of 5. They gave each team \$1.25 from the club treasury then began a contest to see which team could make the most using their \$1.25. One team made cookies and sold them, another made rolls and brought them to your door just ready to bake. One team had "Come as you are breakfasts" and took in \$34.21. They had a party night in which other communities were invited in to Bingo. They made \$66.00 at this affair. There was a cake and several other means used that brought the total for the month that the contest ran to \$115.00. The women reported they had a lot of fun while working in this contest. Mrs. Richard Burch and Mrs. Press Kaster, who attended the Home Management School, conducted by Gladys Darden, assistant Home Management Specialist, gave the demonstration in their club to 13 Panhandle-Eastern women.

(5) Dumas Club has raised money for their treasury by securing subscriptions to the local paper.

Ten women representing 6 of the 9 clubs attended a Stain Removal School conducted January 27, by

Agent Virdee P. Wheeler. Dumas, Cactus, Sunray, Smelter and Reliance have reported that 56 women attended the meetings that were conducted by leaders following this training school. The leaders were: Cactus, Mrs. Bill Green and Mrs. Gerald Eddy; Sunray, Mrs. Earl Allen and Mrs. H. L. Miller; Smelter, Mrs. Lloyd Dunn; Reliance, Mrs. Nuel Sanders.

All clubs contributed to the March of Dimes.

All clubs have planned and presented 30 minute radio programs. The clubs rotate in giving radio programs. Every tenth week a club is responsible for a radio program.

100 4-H girls are enrolled in clothing, with approximately 60 dresses under construction. Moore County 4-H Dress Revue will be May 11th.

We have more than 600,000 inmates in our mental institutions, and this number does not include those who should be in our mental institutions but for whom there is no room—Dr. Jacob S. Orleans, City College, New York.

Andre Gide, French author: "Each age is capable of a particular perfection."

THE WRONG COMPANION

"Ah," sighed the sentimental girl, "I could sit and gaze at the moon for hours."

"Would I were the man in it!" said the youth who wasn't the one. "I agree with that," she replied wearily: "then you would be several hundred thousand miles away."

Labor leaders were influential in bringing about the choice of Dr. Frank Graham as Senator from North Carolina to succeed the late Senator Melville Broughton. Labor, with White House support, sought to have a Senator from the South who would favor civil-rights legislation and the kind of labor laws the Administration wants.

Senator Walter George, of Georgia, real leader of the Democratic majority in the Senate, and Senator Robert Taft (Rep.), of Ohio, are working together on issues of legislative policy. A George-Taft coalition is to have much to do with shaping direction of tax, labor and spending policies.

Desire for publicity lies behind many sensational statements that appear in the public prints.

HOW MODERN MIRACLE OF DESIGN MAKES THE NEW DODGE *DIFFERENT!*

Different!

LONGER on the inside
...SHORTER outside!

Different!

WIDER on the inside
...NARROWER outside!

Different!

HIGHER on the inside
...LOWER outside!

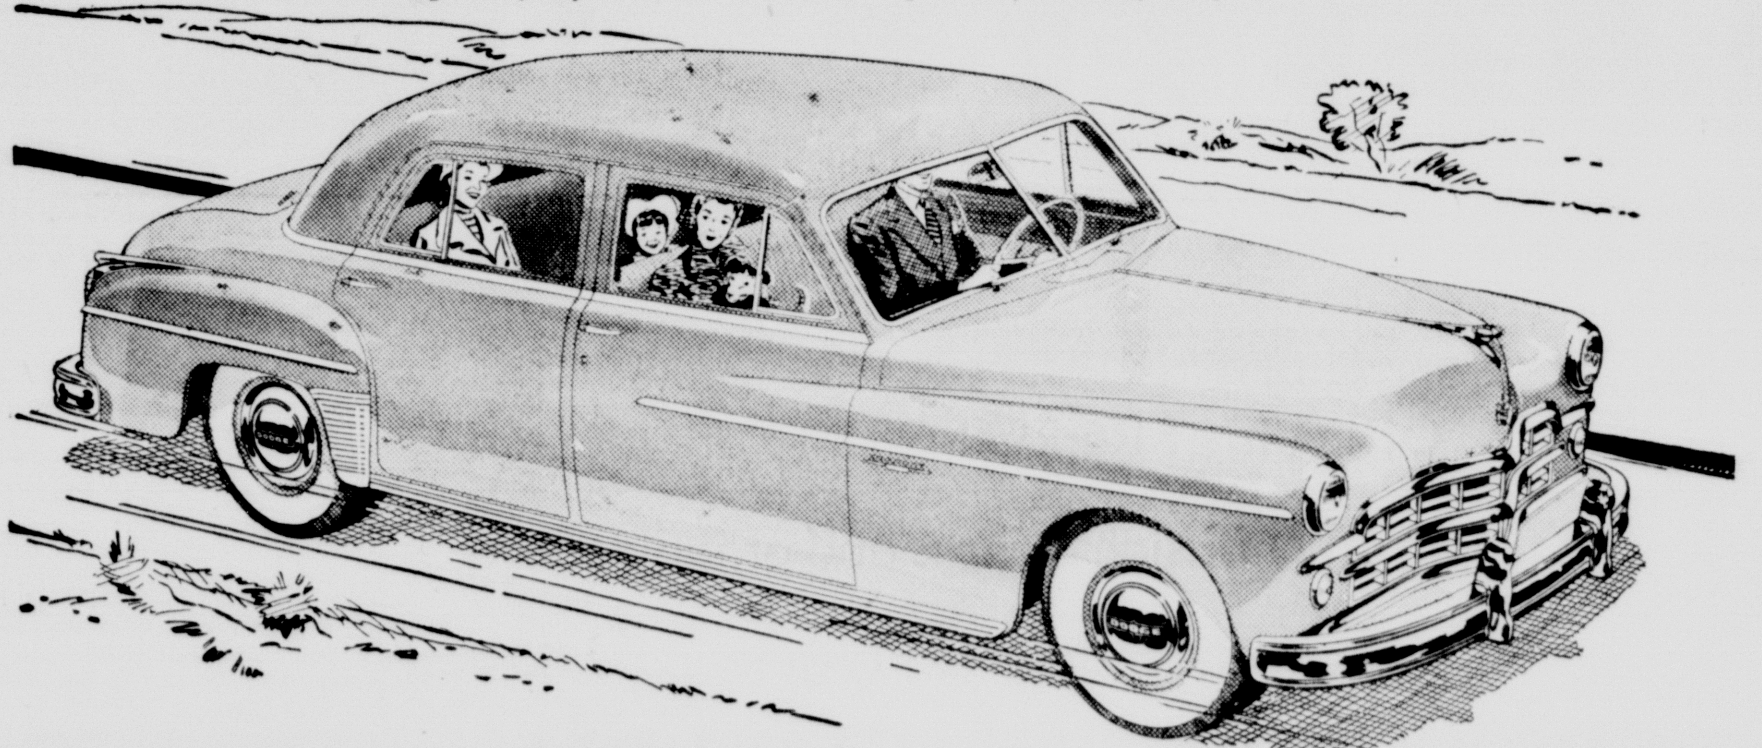

WHO SAYS all cars are alike? Just look at the new Dodge, the car that dares to be different! Different in the sleek lines that flow from true functional styling. Different inside—and out!

Inside, this new Dodge is bigger three ways—longer, wider, higher! But outside it is actually shorter, narrower, lower. No bulky lines to balk you when parking or garaging your new Dodge. Here is a miracle of design that puts your comfort first. Wide

opening doors that make it easy to get in and out . . . inside all the head room, leg room, elbow room you could ask for.

Topping all, is the flashing performance of the famous Dodge "Get-Away" Engine . . . the velvety smoothness of Dodge All-Fluid Drive.

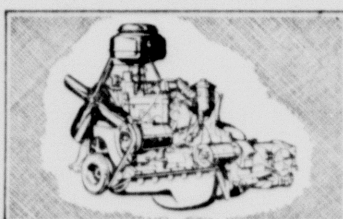

Before you decide on any car, see how much more Dodge gives for your money today!

FENDERS are bolted on . . . easy on your pocketbook to repair, or even replace, if dented or damaged.

LUGGAGE COMPARTMENT . . . big as all outdoors. Spring-balanced lid raises and lowers at fingertip touch.

GET-AWAY ENGINE . . . high-compression engineered for more power . . . faster pickup . . . greater economy.

H. D. MEMBERS

Museum Building on the Campus of West Texas State

Officials of Randall County are pleased to join other business firms and organizations of Canyon in extending hearty greetings and best wishes to all Home Demonstration Club members and workers of this area.

Randall County was among the first counties of this area to employ a Home Demonstration Agent. We are proud of this support and the

achievements of those women who have worked so diligently to make this work a great success. This has been a good investment in citizenship, which is bringing adequate returns.

May your stay in Canyon be pleasant and profitable, and you are cordially invited to return again and take advantage of the facilities which we have to offer.

PARK H. D. CLUB MAKES STUDY OF HARDY FLOWERS

"Hardy Flowers" was the program topic for the Park Home Demonstration Club when it met at the home of Mrs. Frank Simon on Thursday, April 7.

The meeting was opened with group singing of several songs and the roll call topic was "My favorite perennial flower."

Mrs. O. E. Wineinger gave the council report and plans were made to attend the district meeting at Canyon on April 14.

Miss Lou Ella Patterson discussed

the "Use of Perennial Flowers in the Landscape."

"Colorful flowers may be had all seasons by careful selection and placing of varieties," stated Miss Patterson.

Tasty refreshments were served to Miss Patterson, Mrs. H. A. Simon, Mrs. Wineinger, Mrs. Tony Simon, Mrs. H. A. Henson, Mrs. L. J. Raymond, Mrs. Leonard Winters, Mrs. Walter Simon, Mrs. Earl Blasingame, Mrs. A. T. Burks, Mrs. Flynn Winters, Mrs. G. W. Prater, Mrs. G. A. Colling, Mrs. G. W. Runyan, Mrs. D. J. Maynard, and the hostess.

CENTRAL H. D. CLUB MEETS IN HOME OF MRS. KLUCK

Mrs. Truman Kluck was hostess to the Central Home Demonstration Club Friday, April 8.

The business meeting was opened by the singing of the club songs. Mrs. W. L. Rice, the club president, was in charge.

Mrs. Douglas Marshall gave a very interesting report on the T. H. D. A. News.

Mrs. Levi Cole, the club marketing chairman, made up an order of satin for the club. Mrs. George Barker gave a council report and

asked that each club member bring a pen to register with at the April 14th district meeting, and requested that each member attend. She also announced that orders for pineapple would be taken soon. Mrs. Rice had some cook books on bread and roll making which were sold to the club members. Mrs. Kluck was asked to be assistant secretary to the club.

An interesting program was given on insects of everyday life, such as flies, fleas, mosquitos, cockroaches and ants. These were given by Mrs. Douglas Marshall, Mrs. Maude Walters and Mrs. Hugh Greiner.

The hostess served a delicious refreshment plate to the following club members: Mrs. R. E. Foster, Mrs. Velton Sogge, Mrs. J. M. Breitting, Mrs. Walters, Mrs. Cole, Mrs. Mae Johnson, Mrs. S. R. Hood, Mrs. Barker, Mrs. Rice, Mrs. C. V. Wilkerson, Mrs. Otto White, Mrs. Douglas Marshall, Mrs. S. L. Terry, Mrs. H. R. Long, Mrs. Frank Phillips, Mrs. Greiner; and three guests, Mrs. Odus Crowell, Miss Frankie Phillips and Mrs. C. L. Roberts.

The next meeting will be with Mrs. Mae Johnson on Friday, April 22.

PINK AND BLUE SHOWER HONORS MRS. NEWMAN

Mrs. Robert P. Jarrett, Mrs. Boone McClure and Mrs. A. G. Kieselbach entertained with a surprise Pink and Blue shower Thursday night honoring Mrs. J. M. Newman at the home of Mrs. Kieselbach.

Bridge was played during the evening with a salad plate being served immediately following the opening of the gifts. High prize was won by Mrs. J. L. Duflet. Second prize was won by Mrs. Otis Parker and cosponsored was Mrs. Hosea Foster.

A gift was presented to the guest of honor.

Also present were Mrs. Dan O'Connor, Mrs. Wm. A. Moore, Mrs. Larry Holman, Mrs. Hud Prichard, Mrs. Aubrey Crossland, Mrs. Wm. Wilson, Mrs. J. M. Daugherty, Mrs. Clark Jarnagin, Mrs. Sherwood Blasdel, Mrs. Charles Wright, Mrs. Gordon Lyons, Mrs. Roger Whealy and Mrs. Houston Bright.

Sending gifts were Mrs. Iverson Leake, Mrs. Jack Walker and Mrs. Milton Morris.

PLEASE, MR. PRESIDENT!

CLEAVINGERS HONORED WITH FAMILY BIRTHDAY DINNER

Mr. and Mrs. M. E. Cleavinger, Sr., entertained on Wednesday evening with a 7:00 o'clock dinner in honor of the birthdays of Mrs. W. E. Miller, Elmer and Hazel Cleavinger.

This dinner was also a going away get together for the family to honor the M. E. Cleavinger, Jr., family. They moved to Dimmitt on Friday to make their new home. M. E. will manage a hardware store that has

been bought there by the Cleavinger brothers.

Job decline of 370,000 in month up to Feb. 15 reported.

FASHION ACADEMY OF NEW YORK SELECTS THE '49 FORD AS "FASHION CAR OF THE YEAR"

EDITORIAL COMMENTS

Panhandle Press Association Is a Wonderful Institution

The Panhandle Press Association is not the largest trade organization in this area, but it is composed of men and women who are never discouraged regardless of the hard lot through which they may be passing.

It takes a real optimist to run a country weekly. Sometimes it takes a financial wizard to keep the business with its nose above water.

The Panhandle Press Association celebrated its 40th Anniversary last Friday and Saturday. The association is the oldest and largest regional press association in the world. This year there were 451 registered at the convention, with many more paying their annual dues who were detained at home. This is a highly representative group of citizens when you realize that most of them come from the smaller towns of this area. They have a mission of spreading goodwill among the citizens of their communities.

The convention this year was most highly entertained. The people of Amarillo did their best in taking care of the needs of the association, just as they have in the past.

Your Newsman considers the convention the top notch of his 37 years of membership in the organization. During that time he has missed only three conventions; one while overseas in 1919; and twice while serving in the legislature. The past presidents complimented your Newsman Thursday night with a beautiful wrist watch, the kind that doesn't have to be wound up every day. So when you see us shaking our left hand, or scratching our nose, just keep in mind that the watch must go on.

Never, never, will we find a finer group of men and women to associate with than the 29 past presidents who gathered Thursday night, and who made this presentation. We wish that we might have been able to continue serving as secretary for 100 more years—but time marches on, and we are not getting any younger.

Lester Campbell, editor of the McLean News, takes over the job of secretary. He is a fine fellow and will make a good man for the job. Paul Allingham of the Amarillo Globe-News is the new president, and J. C. Howell of the Wheeler News is the new vice president.

The Amarillo papers covered the convention well, so we shall not carry a further report—only again to thank each and every one of our very, very kind newspaper friends for their co-operation in the past.

Sterling Gave West Texas a Start on the Museum Building

Ross Sterling died last week following a colorful life.

He was born a poor boy; gained riches through hard work, and strict attention to business. He gained fame as chairman of the State Highway Commission, and was elected Governor of Texas.

He was defeated for a second term as Governor by Mrs. Ferguson during the prime of James E. Ferguson as a political giant of Texas.

Leaving the Governor's office, his fortune slipped away, but he came back in the oil business with a sizeable fortune at the time of his death.

The people of this area will have Governor Ross Sterling to thank for one improvement, the first unit of the Museum building. This was the only new building on a college campus which Sterling approved while Governor. He approved this building because of the interest pioneer citizens in matching the state 50-50 in the construction of Pioneer Hall.

Of course the pioneers did much more than match the \$25,000 which was appropriated by the state. The people of this area raised more than \$40,000 and are still putting up money to improve this great institution.

We are still grateful for the boost given by Ross Sterling.

Churchill Impresses People

Churchill made a decided hit with the American people while he was here last week. Churchill makes history wherever he goes and under whatever circumstances he speaks. No doubt he can make a better impromptu speech than most fellows could after hard study. But Churchill never talks without due preparation. He knows the penalty of glib talk.

We have always admired one thing about the British government—it develops and encourages its opposition. Here in America we try to suppress opposition, but not so in England. As leader of the opposition, Churchill is encouraged and paid for his opposition. We would like to give our opposition in America the toe of the boot when he speaks up.

We see by the daily press that the street lights of London are again burning brightly. We recall that in the summer of 1918 we landed in London during World War I, and tried to find our way around the streets after night with no street lights. It is a pretty deathly feeling to be in such a predicament. We do not appreciate the joys that America offers until we find ourselves in such surroundings. We take the every day conveniences for granted until we run into a situation like this one. No street lights for several long, dark years! We have always been thankful that our grandfather decided to come to America in his youth, rather than stay in England.

Terry County Herald, Brownfield: The big Democratic dinner and rally down at Austin netted around 40 grand according to press reports, as it was a \$25 a plate affair, managed by Austin's "right smart to the left" mayor. Now the tribe at Lubbock and this section are to put on a \$10 plate affair. We sometimes wonder if these banqueters have any idea of how the money they are raising will be used? We can tell them a few. In 1950, it will be used in the north to load up some more south hating congressmen and senators if possible. And, surprisingly such men as Samuel Rayburn is falling for it. He ought to be old enough to know better.

Here we go again. Thought that as how we had closed the office down for two days, and been as busy as a hunting dog at the press convention, that we would skip this column this week. Being as how we are suckers for compliments, and these feeble editorials were complimented twice this week by Canyon readers, and once by a good newspaper friend, here we go again. Why shouldn't we be resting this afternoon, instead of trying to fill this space?

A man holding public office can hardly expect to please those who want special privileges and extra favors.

Hysteria Often Leads Into Unwise Action by the People

Hysteria often follows serious accidents in which lives are needlessly lost.

This seems to be the case following the accident in which six persons were killed two weeks ago on the highway between Canyon and Amarillo.

Four of those killed were good friends of ours, and we had long been associated with them. Miss Dorinda Bond, one of the victims, has driven hundreds of thousands of miles on the highways, and this was her first, and last accident. The two high school students were among the brightest that have worked on her school paper.

Since the name of *The Canyon News* was used so frequently in the Amarillo papers, the readers may have been confused as to why the high school paper was being printed in Canyon. It started six years ago, simply because there was no shop in Amarillo equipped to handle such a publication. Miss Bond used the paper as a laboratory problem. In any union shop in Amarillo, the students would have been denied this privilege.

The cost of production in Canyon is much less than under union rules.

As a result of the tragic accident, a move has been started in Amarillo to build a printing plant capable of printing the high school paper, and doing other printing for the school and Amarillo College. From the experience we have gathered in 45 years of messing with type and ink, we are compelled to issue the warning that the school officials are getting ready to buy a white elephant. Printing is a highly specialized trade, which takes years of training and a considerable sense of mechanical knowledge to handle.

The average high school student has no opportunity to secure such training.

If and when this plant is established, the school will be forced to call upon the union printers of Amarillo to operate the plant, and therefore the students will again be denied the training that they have been receiving in Canyon; and the school will be paying much higher prices for their printing. We have seen this very thing tried out time and time again, and this is always the result.

And the publishers of the Panhandle are still wondering where that Amarillo printer got his figures as to how cheaply a plant could be installed? Was this propaganda under the stress of hysteria?

Mind you, we are not arguing as to whether the Amarillo schools should or should not have their printing done in Canyon, or Pampa, or some other town; or pay the higher prices in Amarillo.

We do hope that the State Highway Commission will see fit, following this tragic accident, to widen the highway to four lanes so as to eliminate danger of further tragic accidents. Probably the officials will reply that of the thousands of cars which travel this highway weekly, this is the first accident, unfortunate as it is. At any rate it seems that the state is more interested in building super highways around cities than taking care of heavy traffic on overcrowded highways.

Guests in Canyon Are Given a Most Hearty Welcome

Canyon has as her guests this week 500 women who are ardent workers in Home Demonstration Clubs of this area. Canyon entertains many groups during the course of a year, but no organization is more important than the one which will be here for their club meeting.

Last week we had about 1500 young boys and girls in our midst. During the course of the year, Canyon entertains thousands of visitors from all over this region.

Our citizens have a wonderful opportunity to extend goodwill and give a helping hand to those in our midst. If we are neglecting our opportunity of service to our visitors, we are neglecting a great opportunity. Let's take stock of these opportunities.

Atomic Bomb Holds Many Fears

Who shall we believe? Recently heard one speaker say that we are depending too much on the atomic bomb to hold Russia in line.

Now comes another speaker who says that Russia would have overrun all of Europe had it not been for her fear of the atomic bomb.

At least it might seem there is more force behind the second assertion. President Truman made the bold statement the other day that the atomic bomb would be used on any aggressor. If the Russians were not fearful of just this thing, he would probably not be so bold in his declaration. Or was the President again talking off the cuff, which habit has gotten him into trouble upon other occasions.

The News has carried many articles against socialized medicine in recent months. We are opposed to all efforts to put the government in private business. Two weeks ago we carried the statement that the doctors and dentists themselves were bringing on socialized medicine by their unreasonably high prices. We have never published a statement on this page which brought forth more universal praise. We have been amazed at some of the reports which have been made by readers of *The News*. No doubt the same holds true in every town in the nation.

President Truman continues to pat Congress on the back while slapping the members in the face. He demands his full program passed and adopted by Congress. Yet the average member of Congress is far more interested in getting re-elected by pleasing the people back home than he is in pleasing the White House. Truman has seen other attempted purges fail, and any attempt to purge congress on his part will likewise fail.

The Canyon Rotary Club has entered the name of Rotarian Joe Hill as a candidate for district governor of this district. This campaign means that all citizens of Canyon must assist in the election of Joe Hill. There is not a man in the district better qualified for the job. We hope that all of the citizens of Canyon will boost the candidacy of Dr. Hill when see Rotarians from other towns of the 127th District.

The idea behind a single defense organization is economy but it might not be economical in the next war.

It might be a good idea to remind you, before you take that automobile trip, to drive carefully all the time.

Democracy is plagued by the selfish interests of those who should have in mind the general welfare.

News In Canyon 25 Years Ago
(Taken from the files of the Randall County News of April 17, 1924)

Sheriff W. C. Black and P. E. Savage, manager of Randall Hall, found oil oaked rags in Randall Hall after a slight fire yesterday morning. A night watchman was put on the Hall. No arrests have been made or suspicion of the guilty party. A reward of \$100 was offered for the arrest of the guilty party.

627 scholastics are enrolled in the Canyon district by G. G. Foster.

Phyllis Keiser was named Duchess from Randall County for the West Texas Chamber of Commerce convention in Brownwood.

Randall county has received back from Washington 12 of the 17 ballot boxes which were taken in the Mayfield-Petty contest. All of the boxes were so battered that they cannot be used.

Clint Small announced from Wellington that he would not run against J. W. Reid for state senator.

T. B. Atkins and Miss Era Stallings were married.

TRUTHFUL

"Did you notice any suspicious characters in the neighborhood?" the London magistrate inquired.

"Shure," replied the new Irish policeman. "I saw but one man, and asked him what he was doing there at that time of night. Sez he: 'I have no business here just now, but I expect to open a bank in the vicinity later on.'"

"Yes," replied the magistrate, "and he did open a bank in the vicinity later on and stole \$20,000."

"Begorra!" answered the policeman. "The man may have been a thafe, but he was no liar."

Now that we have days for practically everything else why not set one aside for the purpose of honoring the men and women who mind their own business.

NOTICE TO THE CREDITORS AND DEBTORS OF THE ESTATE OF PETER JOHN MYERS, DECEASED

Notice is hereby given that original letters testamentary upon the estate of Peter John Myers, deceased, were granted to me, the undersigned, on this 11 day of April, 1949, by the County Court of Randall County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post office address Childress, Childress County, Texas.

O. F. MEYERS, Executor of the Estate of Peter John Myers.

VACANT SEAT

The minister had preached for an hour and a quarter on the prophets—all the greater prophets and then the minor ones in turn. "Now we come to Habakkuk," he said. "Where shall we put him?"

"He can have my seat," said a Scotsman. "I'm awa' hame?"

DOUBLE DUTY

The other evening I overheard one lady ask another: "Do you do your own work or keep a maid?"

"Yes I do," the other replied.

"Do which?" asked the first.

"Keep a maid and do my own work," came the weary rejoinder.

The henpecked man of the house is now having his lawn mower repaired.

Molotov May Be Soviet Premier In Near Future

The recent shifts of key men within the Soviet government have stirred up an apparently endless discussion as to whether this may be the prelude to some dramatic new tangent in Kremlin policy. The iron curtain is so opaque that no one can answer that with certainty at this distance. However, the experts, after mulling over all the available facts and guesses, have generally come to the conclusion that the changes stem from perfectly logical reasons, which have a relatively small influence on the relations of Russia with the West.

The most important change was the supplementing of Molotov with Vishinsky as Foreign Minister. The easy conclusion was that Molotov was in disgrace, and would disappear from public life, as Litvinoff did years ago. But Molotov remains a member of the Politburo, which is infinitely more important than any cabinet post. So it can logically be argued that Stalin decided he could be of more value if kept at home. It wouldn't surprise the experts if he was made Premier before long.

The key to the whole business may be found in conditions within the Soviet Union and her satellite states. Things aren't going as well as the Communists want. The difficulties with Tito have provided the most publicized example of this. But what is happening in Yugoslavia is also happening, though in a different way and on a smaller scale, in Hungary, Bulgaria and elsewhere. The Soviet-dominated governments

are experiencing special trouble in bringing the peasants into line.

Furthermore, it looks as if the Kremlin is far from satisfied with its own people's ideological fervor. U. S. News puts it this way: "The old idea was that the elite of the Communist Party, which has only 6,000,000 members in a country of about 210,000,000 people, would have faith in Communist ideology and execute the orders. Now the Politburo has ordered a tremendous campaign of missionary work that is designed to sell the idea of complete faith in the eventual triumph of Communism to the whole of the Russian people. That campaign is not the kind of thing that can be put across overnight."

What effect may all this have on the great issue of peace or war? It is clear, if these opinions are correct, that Russia is planning on a lengthy period of peace. At present, the lines in Europe seem to be pretty well established. Russia has expanded about as far as she can go. There is small chance of the West making any headway in breaking the orbit of countries which surround Russia and whose governments she dominates. So, to Stalin and other top men, this may appear to be the proper time for correcting grave internal weaknesses.

Peace would automatically descend upon the earth if every individual and every nation would stop trying to secure unearned advantages.

When people try to explain the creation of the world they might as well go on and tell us about the universe, of which the earth is a very small part.

A compromise, to some people, is an opportunity for the other side to surrender.

Soviet plan to aid satellites held ready on ballyhoo.

Bill Knighton Had Successful Year on Wayland Team

Bill Knighton, son of Mr. and Mrs. T. H. Knighton of Canyon, completed a successful season as guard for the Wayland College Pioneers according to Coach Narley Redin. Knighton, who completed 72% of

all free throws, was co-captain of this year's team.

Redin stated that Knighton was the most dependable fighter and ball hustler on the squad.

OH DOCTOR

It was a wet and bitterly cold night when Dr. Lucas was called to the home of Farmer Smithers. The head of the household was down with a severe cold threatened to turn into pneumonia.

"All he wants, all he can think of," reported his faithful wife, "is hot punch."

"All right," the doctor agreed. "Let him have it. Fix it up and let me see it."

In a little while Mrs. Smithers came into the bedroom, bearing a large bowl of smoking punch. The doctor examined it, smelled it, then drank it down.

"Yes, that's just right," he agreed, smacking his lips. "Now go back and make him one exactly like it—but only half as much."

TOUGH SITUATION
"My fiancée is terribly deaf, and I'm in awful trouble, Bob."

"Well?"
"I had to yell so loudly when I proposed to her that the woman next door has sued me for breach of promise."

What puzzles us, in connection with international affairs, is how in the world Gen. Franco can help the United States.

The surprising thing about our system of trials is not that injustice occasionally occurs but that justice sometimes results.

The adjective has made life lucky for advertising experts and radio commentators.

Does anybody remember when children attending school used to recite every week?

Big Trucks Do Much Damage to State Highways

Every motorist has personally seen the damage done to our highways by heavy commercial vehicles. He has also personally paid part of the bill for maintenance and repairs through higher taxes than would have otherwise been necessary.

Thomas H. McDonald, Commissioner of Public Roads, recently said, "If we accept the principle that highways are provided to serve the public's interest as a whole, it reasonably follows that the cost of building and maintaining them must be held at the level of true economy. This involves the limitation of axle and wheel loads to those for which the highways are designed. The highway user . . . does not wish to pay for new highways to replace those destroyed by excessively heavy loads. . . . The heavy truck operator is, or should be, concerned, because most certainly he will be held accountable for whatever damage the trucks do. . . ."

What makes this particularly important is the tendency of states to legalize heavier and heavier axle loads. Mr. McDonald, who is one of the foremost experts on the subject, is convinced that axle loads in excess of 18,000 pounds should never be authorized. Yet there has been an alarming increase in the number of vehicles in use with heavier loads, ranging up to the terrific figure of 29,000 pounds. You don't need an engineer to explain to you what carriers of that weight do when they pound over our roads.

There has been a remarkable

growth in the number and size of commercial trucks using public highways. Measures which will protect the roads from excessive deterioration under such traffic must be adopted to protect all taxpayers from heavier levies for the highway funds.

The lesson to remember about the next war is that there will be no pushbutton victory.

Canyon Tracksters Place Third; Six Eligible for Regional Meet

Canyon High tracksters, all except six boys, are through with this year's cinder burning days. The members, Albert Craig, Joe Abbott, Golden Currie, Jimmy Lindsey, Robert McClendon, and Phillip Busted, placed either first, second or third in their respective events qualifying themselves to enter in the regional meet to be held in Lubbock, April 23.

Phillips and Dalhart proved to be too much for the Canyon cinder squad while Canyon proved to be too much for Hereford, Dumas, and Tulla.

Phillips garnered 64 points for first place honors. Dalhart racked up 31, and Canyon accumulated 19 points for the third place position.

The summary:
Pole vault: Albert Craig, CHS; Joe Abbott, CHS, tied for second place. Height 9 feet, 9 inches.

High Jump: Hereford; Phillips; Golden Currie, CHS. Height 5 feet, 6 inches.

Discus throw: Jimmy Lindsey, CHS, second place.

440 yd. dash: Robert McClendon, CHS, fourth place. Time 53.2 seconds.

440 yd. relay: Canyon, second place. Time 45.9 seconds.

220 yd. dash: Phillip Busted, CHS, second place. Time 22.9 seconds.

Mrs. Walsh Is Teachers' Head

Class officers for the coming year for the Classroom Teachers Organization will be Mrs. A. L. Walsh president, Mrs. Beard first vice-president, Mrs. Ball second vice-president, Mrs. Iverson, secretary, Mr. Schultz treasurer, and Mr. Devin parliamentary.

"The Mature Mind" by Overstreet, a recent study of newspapers, is the title of the book reviewed by Miss Louella Grace Erdman before the classroom teachers in their regular meeting in the home of Mrs. T. E. Beard last Tuesday.

"Too many newspapers depend for sensationalism entirely as first page material," Miss Erdman quoted the author as saying. "Students should be taught that there are far more good facts in life every day than bad. They should learn to read editorials, columns, and features. They should learn also that too many magazines are printed to display perfect products and not actual life situations!"

Refreshments were served to twenty-six members of the organization.

SOUVENIRS FROM THE OCEAN BED

It sounds unbelievable, but chalk, yes, the chalk we use in our class rooms, came from the ocean bed. Some time, long ago, tremendous earthquakes occurred, so powerful that they pushed up the bottom of the ocean that they have become a part of the dry land. Some of these parts of the ocean bed were thickly covered with masses of tiny shells. In the air and sunlight these microscopic shells dried and formed what we call chalk deposits, some of which are found along the coasts of England and France. In England they are known as the White Cliffs of Dover. Countless millions of these creatures have died to form such cliffs, as it takes over a million of them to make one cubic inch.

Besides being cut into chalk for blackboard use, it is used in making pastes, putty, tooth powders, cement, paint, white wash, and colored crayons.

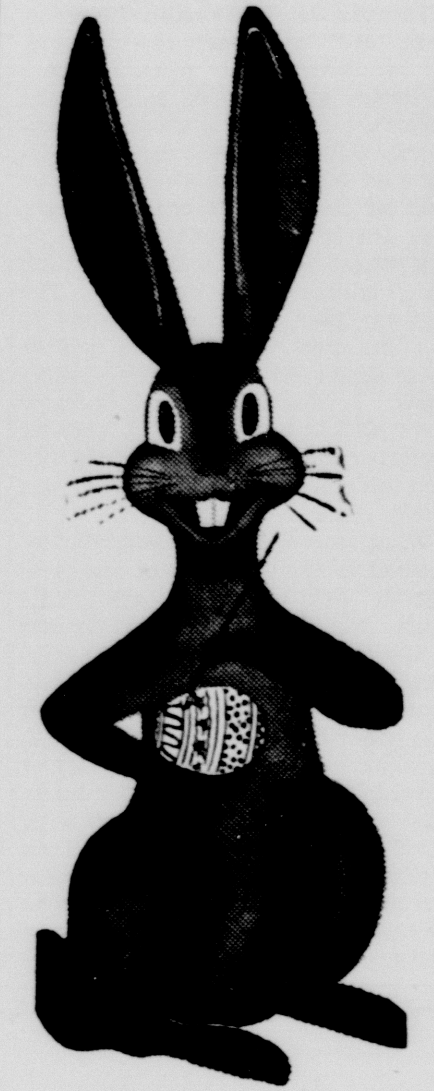

Thus, even so small a matter as the crayon we work problems on the board with, has an interesting history. Don't you agree?

Happy Easter

David Alan Demus Is New Infant's Name

He is here! David Alan Demus arrived last Saturday morning at 9 o'clock via the Neblett Hospital. An exceptionally large stork flew him over, or was it a new jet-propelled plane, since he weighs over nine pounds.

The mother, formerly Mary Helen Mickey, is doing nicely. If she tries holding the new son, he may take time about with her, since he is so large.

David is not talking at the present. Nary an "ah-goo" has passed his lips, but a long discourse in baby language, letting us know what he thinks of us all and the country, is expected momentarily.

Congratulations, Daddy and Mother Demus.

Calendar—

Wednesday 13—Easter film to be shown to student body at 10:15 a. m.
Thursday 14—Six Week Examinations will begin.
Thursday morning: All First and Third period classes.
Thursday afternoon: All Fifth and Seventh period classes.
Friday 15—All Second Period classes in the morning.
Friday afternoon: All Fourth Period classes and all Sixth period classes.
Friday 15—School will be dismissed at the end of the school day for the Easter Holidays. Work will be resumed at the regular hour on Tuesday, April 19.

GIVE THEM MORE THAN SYMPATHY

Buy Easter Seals

Easter Seal dollars last year provided more than 20,000 of Texas crippled children with medical care, equipment, rehabilitation, special education and transportation. As Easter day draws near, Texans are asked to buy and use the Easter Seals which they have received through the mail from the Texas Society for Crippled Children or their local Societies.

The entire student body and the faculty of Canyon Public Schools extend sympathy to Mr. Herman Demus at the death of his mother last Saturday in Chicago, Illinois.

CHS Students in District Clashes

Canyon high school was represented at the District meet by the girls' A Cappella choir, the Junior choir, a one-act play, two typists participating in the speed tests, and boys' and girls' singles and doubles in Tennis.

The A Cappella choir placed in third division on both the contest music and sight reading.

The Junior choir also placed in third division at the contest.

The one-act play presented was under the direction of Miss Mary Frances Colwell, speech teacher of Canyon high school. Don Hickman received a third place ribbon for acting ability. Members of the cast were:

Mabel Ann Graham—Henrietta Brewster.

Don Hickman—Steven Brewster.

Sue Dickerson—Mabel.

Donna Erwin and Shirley Dixon represented Canyon in the typing speed tests but were overrated by Phillips.

Janey Forester, singles in tennis, was defeated by Joyce Davis of Dalhart.

Bobby Jean Ford and Mary Sue Foster were eliminated in the girls' doubles by Betty Strader and Rampa Lee, Dumas.

Jerry Ward of Perryton defeated Mickey King in the boys' singles. Richard Walters and Billy Cleavenger were beaten in the boys' doubles by Ralph Hunter and Jack Brook from Phillips.

DID YOU KNOW THAT—

Taking 47 steps down from the third floor will put you on the bottom floor of CHS? Jumping off would be shorter, but the person who tried might do it only once.

There are 351 squares in the study hall ceiling? Just count them.

Only six weeks of school remain? A devotional is participated in by the students of CHS every Wednesday morning?

One out of 16 people are speaking the truth when they say they're crazy?

There is a holiday next Monday? Sixteen typewriters are used, when in repair, by those taking typing?

Twenty-one sets of graduation portraits decorate the halls of Canyon High?

Sue and Pay Dickerson's birthdays are on the same day, April 21? Could it be that they are twins?

Did you know all that? Huh, did you?

U. S. may ease steel controls to expand exports.

SEC reports securities registered in 1948 at new high record.

Eaglettes Win District Title

Grade Notes

Lynda Jean Self has enrolled in Mrs. Collins' first grade from Horace Mann School in Amarillo.

Mary Rad McKay is back in school after two weeks' illness. Nikki Cabe is absent with the measles.

Mrs. Collins' first grade is dying eggs at school for their Easter party, Friday, at the J. D. Barker farm. The following room mothers are taking cars and furnishing lunch for the children: Mesdames Wilford Taylor, Jr., J. D. Barker, O. W. Parker, and Morris Abbott.

Melvin Tucek, Allen Evers, James Raso, Jerry Richardson and Bobby Irvine are out of Mrs. Black's first grade with measles and Charles Nester is out with chicken pox.

Mrs. Black's room is planning an Easter egg hunt at Mrs. John Robinson's farm, Friday. In preparation the class dyed eggs, Tuesday.

Signs of Easter adorn Mrs. Davis' second grade class room, in the form of Easter bunnies with umbrellas, bordering the wall and Easter baskets full of eggs are being made of construction paper.

The class also dyed Easter eggs for their hunt to be held Friday afternoon.

Sally Foster, Bobby Rice, Clifford Hugg, Dwayne Massey, and Martha Ann Maddux, are absent from school due to illness.

Donald Parker is back in Mrs. Murrell's second grade after a week's absence due to measles.

Phillis Smith and Nancy Wiggins are out of school with measles.

A new pupil in the class is Charles Davis from River Road.

Easter eggs will be dyed Tuesday in preparing for the egg hunt to be held Friday.

The room was decorated for Easter with rabbits and Easter baskets made by the children.

Mrs. Goodman states that word has been received that Danny Barnett, a student who has been seriously ill since January, is improving.

Janet Taylor has been out of school a week with the measles.

Betty Ray Campsey is out of Mrs. Usery's third grade with the measles. The class has made papier mache piggy banks.

Barbara Self from Amarillo has entered Mrs. Brasher's fourth grade.

Ronald D. Crow had an appendectomy last week.

The class is going to Mrs. A. E. Michael's for an Easter egg hunt next Friday. The group will be served refreshments and provided transportation by the following room mothers: Mesdames: R. A. Neblett, Tom Newton, and J. A. Meyer.

An Easter centerpiece in Mrs. Cousins' fourth grade consists of ducks, chicks, rabbits and a rooster made of eggs.

George Alexander spent the weekend in New Mexico.

Gayle Lowrey has been absent the past week with measles.

An Easter party for Mrs. Cousins' room will be held Friday with the following mothers serving: Mesdames Joe Winstead, J. E. Boyd, Lloyd Childers, E. E. O'Donald, and E. P. Harding.

Ruby Jo Yarbrough won in the spelling contest from the grades, last Monday. She is in Mrs. Jones' fifth grade.

An Easter party will be held at Mrs. J. A. Edwards' home, next Friday for five J.

Pay Lowrey is back in Mrs. Walsh's fifth grade after a week's illness.

Richard Busted is out of school with the measles, and Winona Winters is absent due to pneumonia.

Helen Meyer is back in school after an illness. She is a student in Mrs. Iverson's sixth grade.

Joe Dickerson, a sixth grade student, won second in the spelling

Society Sue

Footwear seems to be the issue of the week.

Proof of this is the loud shop-made boots being sported by Bryce and Harrell Slack, June Jennings, and Don Hickman.

Dorothy McReynolds and Teddy Howell have been sneaking around in some gray, bead-trimmed Indian moccasins.

Bob Busted livened things up with some bright orange and blue socks.

A new hairdo with curls pulled away from the face, is very becoming to Inky Zachry.

Joanna Haines' yellow dress really looks "lush" with her blond hair.

Patty Sue Ford has a new short haircut which is, incidentally, of the very latest fashion.

Those bright red polka dot shirts of Richard Walters' and Harry Campfield's have blinded me so that this is all I have been able to see this week.

"So long. . . ."

Many New Features Add To Canyon High Lunch Room

Music for meals in the cafeteria was tried out last Monday, but the volume is too weak to be heard there.

A new pressure cooker has been bought for the lunch room, enabling more food to be cooked at one time, due to the increased number of students eating there.

New plastic dishes with separate compartments for food are being tried out, also they are to be compared with the old ones as to how easy they are to handle and wash, and how they will resist breaking. With these added features the time required for serving should be reduced. This should make eating there more enjoyable.

Capitals—

someone, teach me to type a capital letter. I have been typing all year and I just cannot remember how capitals are made.

What is that, you say to push the shift key. What is the shift key? Oh, you mean that one in the corner, what do you do to it? you push it? o. k.

Look, I made a capital, but the i is still small. I will keep on trying, ha, made a capital i, forgot the ha capital. After a little practice I will do better.

Look At This. The Words Are All Begun With Capitals.

I FINALLY MADE IT. NOW I CAN MAKE CAPITALS.

competition, held Monday.

"The Operetta 'Tom Sawyer' will be given by the fourth, fifth, and sixth grades soon. Rehearsals have begun for it," states Mrs. John Davis, one of the directors.

The Canyon Eagles and Eaglettes will play a benefit game for the Senior Trip Fund on Thursday, April 21, in the grade school gym at 8:00. Be sure to be there!

District Winners Close 1949 Volleyball Season

Canyon Eaglettes volleyball team battled their way past Dumas and Phillips to the District volleyball finals Saturday afternoon. They clinaxed their season then with an overwhelming victory over the Hereford sextette 15-0 and 15-0 in two straight sets which won them the District crown.

Canyon defeated Phillips in the opening game of the tournament in two out of three sets 15-7 and 15-3. Phillips won one set 15-10. The Eaglettes next defeated Dumas two straight sets 15-6 and 15-8.

This year there will be four girls graduating who were members of the volleyball team. They are Dorothy Butler Duniven, Mary Sue Foster, Janey Forester, and Sue Dickerson.

The Eaglettes have captured the Volleyball District pennant the past three out of four years. They won it the seasons of 1946, 1947, and 1949.

This year they also brought home a second place trophy from the annual Amarillo tournament.

Miller, Walsh To Austin Meeting

Principal J. E. Miller and Mrs. A. L. Walsh, fifth grade teacher, were unanimously elected at a called meeting of the Canyon Chapter Teacher Association Monday afternoon to be representatives in Austin this week for the purpose of encouraging immediate action in the House of Representatives on the Gilmer-Aiken bill for education. Other teachers, board members, and lay citizens from this area are also planning to be in Austin at the same time.

These bills are the most important group of measures which the taxpayers of Texas have ever recommended that the legislature pass, and it is imperative that any delaying action by the opponents be countered with aggressive action within the next few days. The local CCTA strongly advocate the provisions of Senate Bill 115 which provides for an appointed State Superintendent from an elected board of education.

An FHA meeting will be held Wednesday, April 13. This will be a very important meeting and the sponsor urges all members to attend.

Remember the date APRIL 21! Watch this paper for further developments!

Jerry Martin, grade school student, is absent from school due to an appendectomy.

New K-F "Traveler" Is Two Cars In One

SOMETHING NEW in the automobile industry is the "Traveler," a lower-priced '49 multi-purpose sedan being introduced by Kaiser-Frazer dealers. To all appearances it is a conventional four-door model. But the rear seat cushions fold away and the entire back opens to provide access to more than 130 cubic feet of cargo space. When not in use as a carry-all, the "Traveler" is a deluxe, six-passenger family sedan. The cutaway-view shows how the seat cushions and hinged rear panels function.

HICKMAN-SCHAEFFER MOTOR COMPANY

Posies to party-line telephone users

OUR THANKS to you and the thousands of others whose willingness to "share the line" has made it possible for so many of your friends and neighbors to enjoy the protection and convenience of a telephone.

Three of every four home telephones today are party lines.

Yes, party lines have "stretched" hard-to-get telephone equipment in a time of shortages and a big demand for service.

Our goal, of course, is service for everyone—the kind he wants, when and where he wants it. For the time being, though, in many neighborhoods we must continue to say:

"We can offer only party-line service to new customers. It's the fair way for everybody while we're still working to get telephones to hundreds of people who are waiting."

See 5000 Years of Farming

. . . From Slavery and Scarcity to Freedom and Abundance

...AT OUR BIG SHOW

For 5,000 years the world had only the power of muscles to produce food. And the world was hungry. Abundance began when American freedom gave birth to the era of farm machinery. Now you can see and hear the story of hardship and hunger for fifty centuries, and the miracle of machines in the last century. See the sweating slaves and plodding beasts—hear the toot of early engine whistles—in this full-color talkie-movie of the pageant at the Wisconsin Centennial Exposition. There will be a cartoon film, "Sawdust Sam," and a conservation movie, also some of the latest farm machines on display. Mark the date on your calendar. Bring all the family.

Noise Runs Up Temperature

CLEVELAND.—There is danger in a very intensely noisy world of temporary loss of hearing, getting hot due to sound absorption and even interference with moving of muscles properly.

Two Air Force scientists told the Acoustical Society of America here how jet engines roaring in confined space, and powerful sirens produce physiological effects in humans and animals.

Temporary hearing losses of as much as 70 decibels (about enough to make it difficult to hear ordinary street noises) were recorded immediately following exposure of men to the siren sound, even when conventional ear defenders were worn.

Rats and guinea pigs exposed were found to convert to heat enough sound energy to raise their body temperatures 20 to 30 degrees, and to produce death in as little time as 10 minutes.

Bedridden Professor Uses Wire Recorder To Lecture Classes

KANSAS CITY, MO.—It suits the Rev. John C. Friedl to keep the body at rest in St. Mary's hospital as long as the mind is not put to bed—something his doctor would find hard to do in Father Friedl's case.

The Rockhurst college professor abided by his physician's prescription for a tired circulatory system. That kept the body away from his philosophy and labor classes at Rockhurst, but the mind and voice were on the job there three times a week.

The professor did it with a wire recording machine which shared a place at his bedside with a telephone, his Bible, other books and a signal button.

There were some things that were the professor's own baby, intellectually speaking, in the institute of social rehabilitation at Rockhurst, and he aimed to shepherd them as long as his mind was free to roam. He knew that the assistant director kept a capable hand on the institute's tiller, meeting its classes and making sure the boys were properly taught.

When it came, however, to that thrice-a-week course in "basic principles in industrial jurisprudence" the professor just couldn't rest in bed or anywhere unless he had a voice in it. This is one of the courses for the degree of bachelor of science in labor relations which the professor deems especially vital in these times.

So, from his fourth-floor room in the hospital, the professor recorded his lectures on the wire recording machine and then sent out the spools of wire bearing his lectures for that course. He talked into the microphone with as much intensity as if he were standing before his class.

Prize Winning Cattle Are Not Well-Groomed by Nature

DES MOINES, IOWA.—The next time you see a well-groomed champion steer in one of those bovine pin-up poses, you can be sure he didn't get that beautiful by accident.

Rules for grooming and exhibiting a baby beef or a bull in 4-H and commercial livestock shows are as exacting as those for a Saturday morning inspection in the army.

For example, one of the first rules of steer-showmanship is that the animal's tail should be clipped down to the "switch," or fluffy section. Clipper marks can cost a steer a point or two in the judging. The switch should be brushed out, and it frequently gets as much attention as a city girl devotes to her coiffure.

Another rule, says William Im-lau, field representative of the Iowa Beef Producers' association, is that the steer's hair coat should be dry. If oil is applied to add sheen to the coat, it must never be enough to cause two hairs to stick together.

A steer's hair can be shown either smooth or curled, depending on which hair-do best suits the steer's "personality."

Peril of Smog Declared Threatening Other Cities

CINCINNATI.—Back from Donora, Pa., scene of the lethal smog which killed 20 residents, Dr. Clarence A. Mills, University of Cincinnati expert on the effect of air pollution on the respiratory system, reported his belief that "many other cities in the country" have the setting for a similar disaster.

Aided by Mrs. Mills, Dr. Mills made a four-day survey of conditions in Donora, secured the co-operation of the community's borough council in having a house-to-house canvass made, and plans to return for further investigations.

Dr. Mills has studied air pollution problems in Cincinnati, Pittsburgh, Chicago, Detroit, Nashville, Birmingham and Atlanta.

The house-to-house canvass will reveal such details for Donora's population as (1) who was affected by the death-dealing smog; (2) tobacco smoking habits, and (3) past histories of individual respiratory damages.

Truman says need to improve roads is "imperative."

Wayside News

Sunday was Rev. Holcomb's regular day. He is the new Baptist minister from Plainview.

S. L. Franklin from Tres Piedras, N. M., and Evelyn Sluder of Happy spent one night last week with his mother and her grandmother, Mrs. E. A. Franklin.

Mrs. J. R. Stockett and Mrs. J. R. Kennedy and Bettye Ruth were Tulsa callers Friday. Mrs. E. A. Franklin accompanied them as far as Happy.

The Chas. Kennedy family were Canyon callers Saturday.

The Eddie Mahler's have almost completed the work on their house.

Mr. and Mrs. W. I. Lane and Joyce were Happy callers one day last week.

Chas. Kennedy had the misfortune of getting his wrist badly sprained while cranking a tractor Friday morning.

The wheat is looking fine, and most of the fruit is still O. K. So much moisture and light nights kept the late freeze from getting it.

The George Hancock family visited over the week end in the parental W. I. Lane home.

REDEEMING FEATURE

"I trust you found that novel interesting," the librarian remarked, hopefully.

"No, not very," the patron replied, "but the letter someone left in it for a bookmark was certainly a lulu!"

THAT WAS FLING'S FINISH

A newspaperman named Fling Could make "copy" from any old thing.

But the copy he wrote Of a five-dollar note Was so good he is now in Sing Sing.

Reading the metropolitan newspapers one would suspect that what a few people say constitutes the news of the day.

Anybody who believes that the world, two hundred years from now, will continue to believe what we believe is an idiot.

Aggies Announce April Dates For Annual T-Anchor Roundup

Drag out your cowboy togs and ten-gallon hats, podners, because the Third Annual T-Anchor Rodeo is just around the proverbial corral. To be specific, April 22 and 23.

To be held in Buffalo Stadium Friday night, April 22 and Saturday afternoon, April 23, the rodeo will be open only to West Texas State cowboys and cowgirls and prizes of a belt and buckle set will be given in each event.

Any interested contestant may fill in the printed entry below and turn it into Herschel Lowe, Canyon Junior, not later than April 15. Contests are scheduled in saddle bronc riding, bareback bronc riding, bull riding, calf roping, ribbon roping and girls sponsor event. To be eligible for the best all-around cowboy, a contestant must enter any two events.

Sponsored annually by the WT Aggie Club, the rodeo this year will use the stock of Tom Harlan of Kellerville. Tommy Beck, McLean senior, is president of the Aggies.

Admission has been set at \$1.00 for adults and 50 cents for children.

QUITE A DIFFERENCE

When Winston Churchill was asked to compare politics with war, he replied: "Politics is almost as exciting as war, and quite as dangerous. In war you can be killed only once, but in politics many times."

The average office-holder can tell you now when he will run again.

A fiscal expert always takes a pessimistic view of future income.

Vacation Problems Should Be Solved At Early Date

The month of April usually brings the first days of near-summer weather to Texas, and literally thousands of Texans commence to make serious and detailed plans for their annual vacation which is of great importance to the health and well being of every man and child.

A vacation can relax nervous tension, bring renewed vigor, and usually supply an opportunity for more sunlight and outdoor activities than is customary for office workers and those of sedentary occupations. But traveling to vacation spots for the purpose of "roughing it" can also bring a serious health menace in the form of typhoid germs from impure water supplies, and for this reason, Dr. Geo. W. Cox, State Health Officer, advises all persons contemplating such a vacation to first be inoculated against typhoid.

"Persons planning a vacation where sanitation standards may not be carefully observed, should protect their health by typhoid inoculation, and thus avoid the risk of serious illness from this debilitating and sometimes fatal disease," Dr. Cox said. "An individual not previously rendered immune, can establish immunity by having one typhoid vaccine injection administered each week for three weeks; if he has kept his immunity from a previous inoculation, one 'booster' shot each year will keep him protected from typhoid."

Dr. Cox warned that impure water is not the only means of spreading typhoid, and cautioned against the careless exposure of food and milk to flies, roaches, rodents, and other germ-spreading pests.

Rock and Mineral Showing Scheduled For San Antonio

The State Mineral Society of Texas plans to have their annual rock and mineral show on the Roof Garden of the Plaza Hotel, San Antonio, April 23 and 24.

The State Mineral Society of Texas is made up of persons all over the State of Texas who are interested in promoting a love of the outdoors, especially in the field of rocks and minerals.

All science teachers in the public schools are invited to attend this show since the exhibits will be of inestimable value to science teachers.

Geologists over the state are showing great interest in the forthcoming show since there will be around 75 tables showing what Texas has to offer in the field of rocks and minerals.

The State Office of the State Mineral Society of Texas is located at 302 Walton Building in Austin with J. J. Brown, President, and Mrs. Mildred K. Spillman, Secretary. The Board of Directors of the State Mineral Society are A. E. Curry, San Angelo; D. W. Danielson, Muleshoe; J. C. Estlack, Clarendon; R. E. Gault, Agua Dulce; E. W. Handy, Tomball; Maurice Ivey, Taft; L. T. Johnston, Buda; Clay Ledbetter, Waco; Joe Murphy, San Antonio; Dr. C. G. Pierrepont, Texarkana; and Frank Woodward, Alpine.

Everyone in the State of Texas who is interested in seeing beautiful rocks, minerals, gems, and jewelry made from the semi-precious rocks found in Texas should by all means attend the Rock Show in San Antonio April 23 and 24.

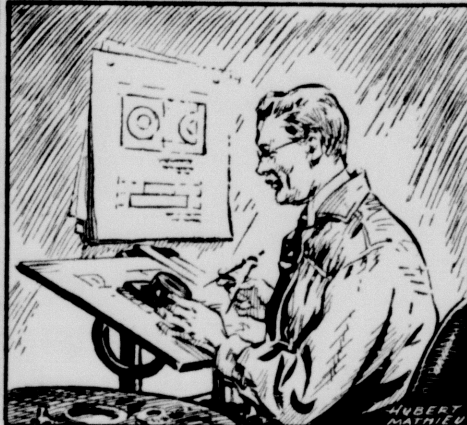

It is a busy day when the average executive cannot find time to play his game of golf.

OUR DEMOCRACY — by Mat

GOOD CRAFTSMEN

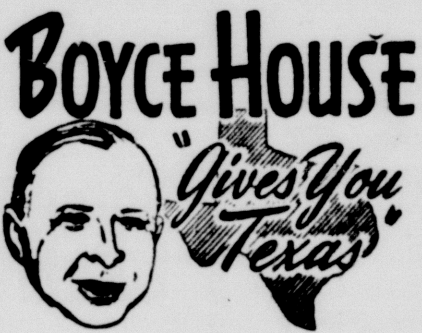

SIMON WILLARD - APRIL 3, 1753 - AUGUST 30, 1848 - MASSACHUSETTS CLOCKMAKER AND INVENTOR... ONE OF WILLARD'S CLOCKS STILL KEEPS TIME IN THE OFFICE OF THE CHIEF CLERK OF THE UNITED STATES SUPREME COURT.

OUR EARLY AMERICAN CRAFTSMEN - DESIGNING THEIR WARES FOR GOOD USE AND LONG SERVICE - WORKING WITH CARE AND INTEGRITY, NOT ONLY CONTRIBUTED ARTICLES OF BEAUTY AND USEFULNESS TO THEIR OWN TIMES, BUT SET HIGH STANDARDS FOR THE GENERATIONS THAT FOLLOWED...

ONE OF OUR FINEST HERITAGES IS THE PRIDE WE TAKE IN GOOD CRAFTSMANSHIP - EXPRESSED TODAY IN THE DESIGN AND CREATION OF GOODS TO BE MASS-PRODUCED - AND THUS MADE MORE READILY AVAILABLE TO ALL THE PEOPLE.

Dr. Arthur H. Compton is doubtless a great atomic scientist—but no great shakes as a grammarian if we are to judge by a recent press dispatch—which quoted him as elaborating an acceptance of an offer to receive an honorary doctor of laws degree from Texas Christian University.

"I will be delighted to become an alumni of Texas Christian."

Maybe Dr. Compton are the Siamese twins.

There was an old-time rancher who was so parsimonious that he fed his cowboys the poorest kind of food. One range-rider complained but without effect. The "old man" rode up to this cowhand's shack and, a storm coming up, he stayed for the night. Next morning, the rancher bit down on a biscuit and yelled, "This is weevil-y." He clamped on the bacon and then angrily said, "This meat is too tough to chew."

He started to shove his plate back but the cowboy whipped out a pistol and announced:

"You said that flour and bacon was good enough for me; now, darn you, eat every bite of it."

Which the cattleman did. So far from firing the nifty cowboy, the ranchman sent over a supply of good grub and always liked him there after. He would refer to the cowpoke as "that kid from Arkansas."

In El Dorado, Ark. (visited in the late 1930's), they told of a banker whose advice was so highly esteemed that when the first World War was in progress, the citizens held back on buying Liberty bonds until, to the promise of the United States government to pay, was added the assurance of the banker that the bonds were a good investment. Then the people bought!

When shirts with separate collars quit being fashionable, a while regiment of jokes went out, too. The worst of the lot was probably the one about the miser with a wart on the back of his neck which he used for a collar button.

It is easy to persuade any worker that the boss ought to pay him more money—in most cases the worker is about correct.

Profits High But Net Gain Small During Year '48

The Wall Street Journal has published what it terms "American industry's report card." It is a comparison of 1948 earnings of 376 leading industrial concerns, in two dozen industries, with the earnings made in 1947. It makes very interesting reading for those who are concerned with the economic state of the nation.

The most obvious fact is that 1948 produced record dollar profits, running to well over \$5,000,000,000 for the 376 companies. But, as any economist will tell you, dollar totals alone don't tell the whole story by a long shot. Other factors, tangible and intangible, enter the picture.

First of all, there were tremendous differences in the profit experience of various industries last year. The oil companies did the best—about a 66 per cent gain for 18 companies listed in the report card. On the other hand, 5 principal moving picture producers had a stunning 64 per cent drop in earnings. The public utilities, whose rates are fixed by regulatory commissions, showed almost no change.

Furthermore, some industries with very high dollar earnings still had difficult financial problems to deal with. Oil was one. An extraordinarily high demand forced the most rapid expansion possible. Emergency measures, often costly, were employed to get products to consumers. New construction carried a price tag two to three times as great as before the war. Consequently, the larger part of the earnings had to go back into the plant and labor rather than to stockholders.

The depreciation problem also takes some of the brightness away from the profits total. Under our tax laws and policies, a concern is allowed to depreciate physical equipment by so much a year, and lay the money away for future replacement. However, replacement costs are now so high that the funds thus accumulated aren't adequate for the job. So more profits must be applied to that.

The question everyone is asking now is whether the rate of earnings will continue. The Journal says that "most corporate officials expect a good year, but you have to search long to find one who thinks profits will measure up to the 1948 reports." In the view of The Texas Company, a major oil concern, "A greater volume of sales will not be sufficient to offset price declines and continued high operating costs." In industry after industry tougher competition, plus, in some cases, a decline in consumer eagerness to buy, points to a slackening of the boom. This is indicated in dividends to stockholders. More and more firms, following a cautious policy, have recently been cutting them.

If you want to be highly recommended let somebody else say the word.

IT'S FUTURAMIC! IT'S THE NEW OLDSMOBILE "88"... LOWEST-PRICED CAR WITH HIGH-COMPRESSION "ROCKET" ENGINE!

New "88" Club Sedan with "Rocket" Engine. Hydra-Matic Drive standard equipment on Series "98" and "88" models, optional at extra cost on "76." White sidewall tires optional at extra cost.

Oldsmobile brings you Futuramic styling! Oldsmobile brings you "Rocket" Engine power! Oldsmobile combines them in the thrilling "88"... the lowest-priced "Rocket" Engine car! It's the New Thrill! But you've got to drive it to believe it. You float through traffic in this car. You wing down the highway with a sensation of quiet smoothness that you've never known before. More power... *proved* power, that makes every mile pure pleasure. Yet Oldsmobile's 135 horsepower high-compression "Rocket" Engine actually saves on fuel! What's more, this sparkling "88" almost drives itself, thanks to the magic of Hydra-Matic Drive*. No old-fashioned shifting or clutch-pushing... all you do is step on the gas and go!

Go Futuramic. Pick the "88" for style, for maneuverability, for the solid comfort of a brand new Body by Fisher... and for the New Thrill of "Rocket" Engine performance! See the "88"—and the "Rocket" Engine Oldsmobile "98" at your Oldsmobile dealer's.
